DOCTORATE IN PHILOSOPHY INTERNATIONAL DEVELOPMENT

The School of International Development and Global Studies (SIDGS) offers an interdisciplinary graduate program leading to the degree of PhD in International Development. The program caters to students from both academic and professional backgrounds, and is offered in both English and French. In accordance with the University of Ottawa regulation, students have the right to produce their work, their thesis, and to answer examination questions in French or in English. The program is offered on a full-time basis.

Two fields are offered in the PhD Program:

- Development Theory and Critique
- Development Policy and Practice

Further information on the fields and research interests of the professors is posted on the program website (https://socialsciences.uottawa.ca/international-development-global-studies).

The program operates within the framework of the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies.

Admission Requirements

For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (http://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements) webpage.

Admission to the PhD program is governed by the general regulations in effect for graduate studies.

To be considered for admission, applicants must:

- Hold a master's degree or equivalent in International Development Studies or in a related discipline. Examples of related disciplines include Economics, Education, Geography, Law, Political Science, Sociology and Anthropology.
- Have achieved a minimum average of 75% (B+) calculated in accordance with graduate studies guidelines.

Language Requirements

An active knowledge of French or English is essential. Applicants must indicate in their application the language in which they intend to take the majority of their courses. Applicants whose first language is other than English or French and who have completed their BA and MA degrees in a language other than English or French must provide proof of their level of competence in one of these languages. In the case of English, applicants must have a TOEFL score of 100 or an equivalent score on another test. In the case of French, the applicant must obtain a level of F7 on the Immersion Admission Test administered by the University of Ottawa’s Official Languages and Bilingualism Institute (OLBI). The School of International Development and Global Studies (SIDGS) reserves the right to conduct an interview and to require a test in either language. If a student’s doctoral research requires knowledge of a language other than French or English, the School may require proof of such knowledge.

Fast-Track from Master’s to PhD Program

Students enrolled in the MA program in Globalization and International Development may be allowed to fast-track to the PhD program in International Development without being required to write a master’s thesis, provided they meet the following conditions:

- Completion of six master’s courses (18 units) including at least three courses in Globalization and International Development with a minimum average of 8/10 overall and 8.5/10 in three Globalization and International Development courses.
- Satisfactory progress in the research program.
- Submission of a well developed research plan that must include, at a minimum, a thesis proposal and background literature review.
- Written recommendation from the proposed PhD thesis supervisor.
- Recommendation by the PhD studies committee.
- Approval of the vice-dean (graduate studies) of the Faculty of Social Sciences.

Students must request permission to fast-track during the fourth term of enrollment or earlier and, if approved, must enroll in the PhD program in the fifth or, at the latest, in the sixth term. To receive the doctorate, students must successfully complete 30 units of courses (MA + PhD), the comprehensive examinations, the thesis proposal and the thesis. The total number of course units required may be reduced by six, as determined by the PhD Studies Committee.

Program Requirements

The requirements of the PhD program in International Development include successful completion of 12 units of coursework, two comprehensive examinations, a thesis proposal and a thesis.

Note(s)

1 The optional course is selected from the program’s list of SIDGS graduate courses. Under exceptional circumstances, students may select a course from another graduate program with permission of both the DVM doctoral program director and the director of the other program.
Subject to the successful completion of all the course requirements, enrollment in the first Comprehensive Examination (DVM 9996) is permitted in the student’s third term in the program. Once the first examination has been successfully completed, enrollment in the second exam is permitted. Each of the two comprehensive examinations consists of a written exam followed by an oral presentation and defense. Both examinations must normally be completed by the end of the fourth term. Further details about the examinations are posted on the program website. Students who fail an exam are allowed to repeat it the following term at the latest. A second failure in either exam leads to compulsory withdrawal from the program.

The thesis proposal, prepared under the direction of the thesis supervisor, must be defended to the satisfaction of the Thesis Advisory Committee (TAC). The proposal must normally be successfully completed by the end of the fifth term. In the event of failure, the proposal can be resubmitted and defended the following term at the latest. A second failure leads to withdrawal from the program. The proposal must be successfully completed before submitting it to the Research Ethics Board (if required) and before undertaking any independent data collection.

**Thesis Advisory Committee (TAC)**

During the first term, a thesis advisory committee (consisting of the thesis supervisor and at least two other professors) is assigned in consultation with the student. At least two of the committee members must be professors within the School of International Development and Global Studies (SIDGS). The composition of the committee is confirmed at the end of the first year. This committee is responsible for approving the thesis proposal and for advising the student throughout the program.

**Additional Requirements**

The requirements outlined above are a minimum. The Admissions Committee reserves the right to add up to two other courses if considered essential in light of the student’s academic background.

**Minimum Standards**

The passing grade in all courses is 65% (C+). Students who fail two courses (equivalent to 6 units), one of the comprehensive exams, the thesis proposal, the thesis or whose progress is deemed unsatisfactory must withdraw from the program.

**Duration of the Program**

The requirements of the program are usually fulfilled within four years. The maximum time permitted is six years from the date of initial enrollment in the program, or seven years in the case of the students fast-tracked from the master’s to the doctorate.

**Research Research Fields & Facilities**

Located in the heart of Canada’s capital, a few steps away from Parliament Hill, the University of Ottawa is among Canada’s top 10 research universities.

uOttawa focuses research strengths and efforts in four Strategic Areas of Development in Research (SADRs):

- Canada and the World
- Health
- e-Society
- Molecular and Environmental Sciences

With cutting-edge research, our graduate students, researchers and educators strongly influence national and international priorities.

**Research at the Faculty of Social Sciences**

The Faculty of Social Sciences represents a place of excellence in knowledge creation, research and training. Driven by both disciplinary and interdisciplinary perspectives, research at the Faculty is rich, innovative and varied, contributing to the depth of understanding and breadth of discussions on a variety of issues nationally and internationally. This research, whether it be fundamental, theoretical, applied or action-oriented, is generated by our renowned expertise, ultimately culminating in applications designed to influence individual communities and the betterment of society.

We have identified five research themes which collectively represent a large proportion of the research undertaken at the Faculty of Social Sciences:

- International Studies
- Francophonie
- Public Policy
- Health, Well-Being
- Justice, Society

**Facilities, Research Centres and Institutes at the Faculty of Social Sciences**
