DOCTORATE IN PHILOSOPHY NURSING

Summary

• Degree offered: Doctorate in Philosophy (PhD)
• Registration status option: Full-time
• Language of instruction:
  • French
  • English
• Program option (expected duration of the program):
  • with thesis (12 full-time terms; 48 consecutive months)
• Academic units: Faculty of Health Sciences (https://health.uottawa.ca), School of Nursing (http://health.uottawa.ca/nursing).

Program Description

The goal of the doctoral program in nursing is to prepare scientists capable of conducting innovative research that results in new and significant contributions to nursing knowledge. The students engage in creative thinking, critical appraisal and synthesis of scholarly work in their field of interest using a wide range of philosophical, theoretical and methodological perspectives.

To be considered as having full-time status, students must be geographically available and visit the campus regularly.

The PhD program consists of three fields:

• Evidence informed decision making in nursing and health care;
• Sociopolitical, educational and historic contexts of nursing;
• Nursing practice and delivery systems.

Other Programs Offered Within the Same Discipline or in a Related Area

• Graduate Diploma in Primary Health Care for Nurse Practitioners
• Master of Science Nursing (MScN)
• Master of Science Nursing Specialization in Women's Studies (MScN)

Fees and Funding

• Program fees:
  The estimated amount for university fees (https://www.uottawa.ca/university-fees) associated with this program are available under the section Finance your studies (http://www.uottawa.ca/graduate-studies/programs-admission/finance-studies).
  International students enrolled in a French-language program of study may be eligible for a differential tuition fee exemption (https://www.uottawa.ca/university-fees/differential-tuition-fee-exemption).
  To learn about possibilities for financing your graduate studies, consult the Awards and financial support (https://www.uottawa.ca/graduate-studies/students/awards) section.

Notes

• Programs are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies.
• In accordance with the University of Ottawa regulation, students have the right to complete their assignments, examinations, research papers, and theses in French or in English.

Admission Requirements

Application Deadlines

<table>
<thead>
<tr>
<th>Deadlines</th>
<th>Fall term</th>
<th>Winter term</th>
<th>Summer term</th>
</tr>
</thead>
<tbody>
<tr>
<td>Canadian students</td>
<td>February 1</td>
<td>-</td>
<td>-</td>
</tr>
<tr>
<td>International students</td>
<td>February 1</td>
<td>-</td>
<td>-</td>
</tr>
</tbody>
</table>

• Applications received after the deadline will only be considered based on the availability of space and funding.
• Late applications may be considered. Interested applicants are advised to contact their potential supervisor and the Graduate Studies Office of the Faculty of Health Sciences for advice regarding late applications.

To be eligible, candidates must:

• Have an honours bachelor’s degree and a master’s degree in nursing or a related discipline (e.g., education, health administration, psychology) with a minimum overall average of 75% (B+).

Notes:

• International candidates must check the admission equivalencies (https://www.uottawa.ca/graduate-studies/international/study-uottawa/admission-equivalencies) for the diploma they received in their country of origin.
• Applicants who do not have a master’s degree in nursing and/or whose knowledge of research methods or statistics is deficient may be asked to take qualifying courses such as NSG 5130, NSG 5192, or NSG 5140. Those who require more than two courses must complete them prior to admission. Those requiring two or less may be allowed to take them after admission to the program. However, these courses would be additional to the 15 units required of all students in the program.
• Have knowledge in the following key areas: research methods, statistics, and nursing theory.
• Pay the $100 ($CDN non-refundable) application fee.
• Identify at least one professor who is willing to supervise your research and thesis. We recommend that you contact potential thesis supervisors as soon as possible.

Language Requirements
Applicants must be able to understand and fluently speak the language of instruction (French or English) in the program to which they are applying. Proof of linguistic proficiency may be required.

Applicants whose first language is neither French nor English must provide proof of proficiency in the language of instruction.

Language tests recognized by the University of Ottawa:
• TOEFL;
• IELTS;
• An equivalent language test (http://www.uottawa.ca/graduate-studies/programs-admission/apply/required-documents).

Notes:
• Candidates are responsible for any fees associated with the language tests.
• Information on language requirements and tests can be found in Section A-3.e) of the General Regulations.

Notes
• The admission requirements listed above are minimum requirements and do not guarantee admission to the program.
• Admissions are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies.
• Students intending to include a clinical practice component in their research must be enrolled as nurses in the jurisdiction where the clinical component of the research will take place.

Documents Required for Admission
In addition to the documents required (http://www.uottawa.ca/graduate-studies/programs-admission/apply/required-documents) for graduate and postdoctoral studies, candidates must submit the following documents to the Academic Office of the Faculty of Health Sciences:
• The official "Application for Admission On-line - Graduate Studies" form
• An up-to-date resume
• A narrative statement (maximum 3 pages or 900 words) describing:
  • How the PhD in Nursing will enable you to achieve your career goals; and
  • Your proposed research project including a statement of the research problem, justification of the research project, its relevance for the nursing profession and an overview of the study design.
• A signed letter from a potential thesis supervisor supporting your application and indicating willingness to supervise your research.
• Three letters of recommendation.
• One may be from a clinical supervisor, and at least two must be academic references that address your potential for doctoral studies as indicated by your research and leadership.

• You are strongly encouraged to contact your referee(s) prior to submitting your application in order to confirm their email address and their availability to complete your letter of recommendation.
• Transcripts from all universities attended:
• You must submit official transcripts from all the universities you have attended.

This applies to all courses and programs at any university you attended, including regular programs (completed or not), exchanges, letters of permission, online or correspondence courses, courses taken as a special student or visiting student, etc.

• If the transcript and degree certificate are not in English or French, a certified translation (signed and stamped/sealed) must be submitted.
• A dossier demonstrating research competence:

Research competence can be demonstrated either through the completion of a master’s thesis or through projects completed during nursing practice or as part of a non-thesis program. Non-thesis students must present a dossier that demonstrates their research skills. The dossier might include research reports, publications in peer-reviewed journals, program development and evaluation reports, abstracts, presentations, etc. The proposed thesis supervisor will provide a written evaluation of the dossier to the admissions committee, who will make the final decision about the student’s suitability for the program.

Note: Documents that are not required for admission will not be consulted, conserved or returned to the student. These documents will be destroyed according to our administrative procedures.

Fast-Track from Master’s to PhD
Students enrolled in the master’s program in nursing at the University of Ottawa may be eligible to fast-track directly into the doctoral program without writing a master’s thesis, provided the following conditions are met:
• Completion of the four core master’s courses with a CGPA of at least 8.0; and
• Submission of the following documents to the Graduate Studies Committee of the School of Nursing:
  • Two letters of recommendation. One may be from a clinical supervisor, and at least one must be academic reference that address the candidate’s potential for doctoral studies as indicated by their research and leadership;
  • An up-to-date curriculum vitae;
  • A narrative statement (maximum 3 pages or 900 words) describing:
    • How the PhD in Nursing will enable you to achieve your career goals; and
    • Your proposed research project including statement of the research problem, justification of research project, relevance for the nursing profession and an overview of the study design.
  • A signed letter from a potential thesis supervisor supporting the student’s application and indicating willingness to supervise the potential candidate’s research.
The transfer must take place by the end of the fourth term of study at the latest. The application deadline for such a transfer is the first Monday of May.

**Information about how to apply to this program is available under the Apply Now** [link](http://www.uottawa.ca/graduate-studies/programs-admission/apply/#apply-now) section.

Students should complete and submit their online application with supporting documentation (if applicable) by the deadline indicated above.

---

**Program Requirements**

**Doctorate**

Students must meet the following requirements:

**Compulsory Courses:**

<table>
<thead>
<tr>

<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>NSG 9999</td>
<td>PhD Thesis</td>
<td>0</td>
</tr>
</tbody>
</table>

**Note(s)**

1. The course units are selected based on the student’s needs.
2. Students are responsible for ensuring they have met all of the thesis requirements ([link](http://www.uottawa.ca/graduate-studies/students/theses)).

---

**Minimum Requirements**

The passing grade in all courses is B.

Students who fail two courses (equivalent to 6 units), the thesis proposal, or the comprehensive exam or whose research progress is deemed unsatisfactory are required to withdraw.

---

**Research**

**Research Fields & Facilities**

Located in the heart of Canada’s capital, a few steps away from Parliament Hill, the University of Ottawa is among Canada’s top 10 research universities.

---

uOttawa focuses research strengths and efforts in four Strategic Areas of Development in Research (SADRs):

- Canada and the World
- Health
- e-Society
- Molecular and Environmental Sciences

With cutting-edge research, our graduate students, researchers and educators strongly influence national and international priorities.

**Research at the Faculty of Health Sciences**

Research at the Faculty involves many important aspects of health, including women’s health, health in the elderly, health needs of francophones in a minority context, Aboriginal health, physical activity and health, multiple interventions in population health, palliative care, rehabilitation and functional autonomy, health and technology, and evidence based practice.

**Facilities, Research Centres and Institutes at the Faculty of Health Sciences**

- The Ottawa Hospital Research Institute
- The Children’s Hospital of Eastern Ontario Research Institute
- The Bruyère Research Institute
- The Community Health Research Unit
- The Institute for Rehabilitation Research and Development
- The University of Ottawa Institute of Mental Health Research
- L’Institut de recherche de l’Hôpital Montfort
- The Institute of Population Health
- University of Ottawa Heart Institute

For more information, refer to the list of faculty members and their research fields on [Uniweb](https://www.uottawa.ca/graduate-studies/uniweb).

**IMPORTANT:** Candidates and students looking for professors to supervise their thesis or research project can also consult the website of the faculty or department ([link](https://www.uottawa.ca/graduate-studies/students/academic-unit-contact-information)) of their program of choice. Uniweb does not list all professors authorized to supervise research projects at the University of Ottawa.

---

**Courses**

The following courses are not necessarily offered every year.

**NSG 5130 Development of Knowledge and Theory in Nursing as a Discipline (3 units)**

Prevailing nursing conceptualizations and their links to practice, research and education. Historical development and structure of contemporary nursing knowledge. Critique of middle-range theories appropriate to the study of nursing phenomena.

**Course Component:** Lecture
NSG 5140 Research Methods in Nursing (3 units)
Critical appraisal of research in nursing. Methodological issues related to research problem conceptualization; design selection; sampling; instrument development; data management and analysis. Creation of a nursing research proposal.
Course Component: Lecture
Prerequisite: NSG 5130.

NSG 5192 Statistical Analysis in Nursing (3 units)
Introduction to the planning, analysis and interpretation of quantitative research in nursing including: analysis of inferential statistics; analysis of variance and covariance; and linear regression.
Course Component: Lecture

NSG 5210 Advanced Nursing Practice in Primary Health Care (6 units)
Course Component: Lecture
Prerequisite: NSG 5130

NSG 52101 Advanced Nursing Practice in Primary Health Care (Part 1 of 2)
Nurses’ role in advanced nursing practice. Theoretical foundations, concepts and strategies in primary health care. Clinical practicum as a consultant, educator, researcher, leader and clinician in primary health care. (Part 1 of 2)
Course Component: Lecture
Corequisite: NSG 5130

NSG 52102 Advanced Nursing Practice in Primary Health Care (Part 2 of 2) (6 units)
Nurses’ role in advanced nursing practice. Theoretical foundations, concepts and strategies in primary health care. Clinical practicum as a consultant, educator, researcher, leader and clinician in primary health care. (Part 2 of 2)
Course Component: Lecture
Prerequisite: NSG 52101

NSG 5220 Advanced Nursing Practice in Tertiary Health Care (6 units)
Corequisite: NSG 5130.
Course Component: Lecture
Prerequisite: NSG 5130

NSG 52201 Advanced Nursing Practice in Tertiary Health Care (Part 1 of 2)
Nurses’ role in advanced nursing practice. Theoretical foundations, concepts and strategies associated with caring for patients and their families in complex care situations. Clinical practicum as a consultant, educator, researcher, leader and clinician in tertiary health care settings. (Part 1 of 2)
Course Component: Lecture
Corequisite: NSGS130

NSG 52202 Advanced Nursing Practice in Tertiary Health Care (Part 2 of 2) (6 units)
Nurses’ role in advanced nursing practice. Theoretical foundations, concepts and strategies associated with caring for patients and their families in complex care situations. Clinical practicum as a consultant, educator, researcher, leader and clinician in tertiary health care settings. (Part 2 of 2)
Course Component: Lecture
Prerequisite: NSG 52201

NSG 5350 Pathophysiology for the Nurse Practitioner (3 units)
Examine theoretical and practice related concepts in pathophysiology as a basis for advanced nursing practice. Explore alterations in physiological function with an emphasis on age-related, acute, episodic, and chronic conditions found in primary health care practice. Seminar: 3 hours/week. Course for PHCNP students only.
Course Component: Lecture

NSG 53501 Pathophysiology for the Nurse Practitioner (Part 1 of 2)
Examine theoretical and practice related concepts in pathophysiology as a basis for advanced nursing practice. Explore alterations in physiological function with an emphasis on age-related, acute, episodic, and chronic conditions found in primary health care practice. Seminar: 3 hours/week. (Part 1 of 2)
Volet : Cours magistral
Course for PHCNP students only.

NSG 53502 Pathophysiology for the Nurse Practitioner (Part 2 of 2) (3 crédits)
Examine theoretical and practice related concepts in pathophysiology as a basis for advanced nursing practice. Explore alterations in physiological function with an emphasis on age-related, acute, episodic, and chronic conditions found in primary health care practice. Seminar: 3 hours/week. (Part 2 of 2)
Volet : Cours magistral
Prerequisite: NSG 53501. Course for PHCNP students only., Prerequisite: NSG 53501. Course for PHCNP students only.

NSG 5360 Roles and Responsibilities of the Nurse Practitioner (3 units)
Compare and contrast advanced practice nursing and related frameworks to develop, integrate, sustain, and evaluate the role of the nurse practitioner within primary health care. Critically analyze and develop strategies to implement advanced practice nursing competencies with a focus on the community. Seminar: 3 hours/week. Course for PHCNP students only.
Course Component: Lecture

NSG 53601 Roles and Responsibilities of the Nurse Practitioner (Part 1 of 2)
Compare and contrast advanced practice nursing and related frameworks to develop, integrate, sustain, and evaluate the role of the nurse practitioner within primary health care. Critically analyze and develop strategies to implement advanced practice nursing competencies with a focus on the community. Seminar: 3 hours/week. Course for PHCNP students only. (Part 1 of 2)
Volet : Cours magistral
Course for PHCNP students only.
NSG 53602 Roles and Responsibilities of the Nurse Practitioner (Part 2 of 2) (3 crédits)

Compare and contrast advanced practice nursing and related frameworks to develop, integrate, sustain, and evaluate the role of the nurse practitioner within primary health care. Critically analyze and develop strategies to implement advanced practice nursing competencies with a focus on the community. Seminar: 3 hours/week. Course for PHCNP students only. (Part 2 of 2)

Volet : Cours magistral
Prerequisite: NSG 53601. Course for PHCNP students only.

NSG 5370 Advanced Health Assessment and Diagnosis I (3 units)
Analyze and critique concepts and frameworks essential to advanced health assessment and diagnosis using clinical reasoning skills. Apply clinical, theoretical and research knowledge in comprehensive and focused health assessment for the individual client’s diagnostic plan of care. Course for PHCNP students only. Corequisite: NSG 5350.

Course Component: Lecture
Co-requisite: NSG 5350.

NSG 5375 Advanced Health Assessment and Diagnosis II (3 units)
Integrate knowledge and apply conceptual frameworks integral to advanced health assessment and diagnosis in advanced nursing practice. Demonstrate initiative, responsibility, and accountability in complex decision making for individuals, groups, and/or families within the nurse practitioner scope of practice based on current research findings. Seminar: 3 hours per week. Clinical: 6 hours per week.

Course Component: Lecture
Prerequisite: NSG 5370. Course for PHCNP students only.

NSG 5380 Therapeutics in Primary Health Care I (3 units)
Critically appraise and interpret concepts and frameworks integral to pharmacotherapy, advanced counseling, and complementary therapies for common conditions across the lifespan. Develop, initiate, manage, and evaluate therapeutic plans of care that incorporate client values and acceptability, goals of therapy, analysis of different approaches, pharmacotherapeutic principles. Course for PHCNP students only.

Corequisite: NSG 5370.

Course Component: Lecture
Co-requisite: NSG 5370.

NSG 5385 Therapeutics in Primary Health Care II (3 units)
Integrate conceptual frameworks and evidence underlying the study of pharmacotherapy, advanced counseling, and complementary therapies for complex client situations. Demonstrate substantive initiative, responsibility, and accountability in complex decision making.

Course Component: Lecture
Prerequisite: NSG 5380. Co-requisite: NSG 5375. Course for PHCNP students only.

NSG 5401 Integrative Practicum (12 crédits)
Synthesize the competencies essential to advanced nursing practice to provide primary health care for clients across the life span. Demonstrate autonomy, decision-making, and critical analysis of organizational and system issues that influence scope of practice, professional accountability, and outcomes. Course for PHCNP students only.

Volet : Cours magistral
Prerequisites: NSG 5350, NSG 5360, NSG 5370, NSG 5375, NSG 5380 and NSG 5385.

NSG 5530 Étude de la discipline infirmière (3 crédits)
Historique du développement de la discipline infirmière et de l’organisation de son corps de connaissances. Conceptions dominantes et leurs liens avec la recherche, la pratique et la formation dans la discipline. Critique de théories de niveau intermédiaire utiles à l’explication de phénomènes propres à la discipline.

Volet : Cours magistral

NSG 5540 Méthodologie de la recherche en sciences infirmières (3 crédits)
Analyse critique de la recherche dans la discipline infirmière. Éléments méthodologiques reliés à la problématique, la sélection du devis, l’échantillon, l’élaboration d’instruments de mesure, la gestion et l’analyse des données. Développement d’un protocole de recherche en sciences infirmières.

Volet : Cours magistral

NSG 5592 Analyse statistique en sciences infirmières (3 crédits)
Introduction à la planification, l’analyse et l’interprétation des résultats de recherche de type quantitatif en sciences infirmières incluant ce qui suit : analyse de statistiques inférentielles, analyse de variance et de covariance, régression linéaire.

Volet : Cours magistral

NSG 5610 Soins infirmiers de niveau avancé en soins de santé primaires (6 crédits)

Volet : Cours magistral
Corequisite: NSG 5130.Prerequisite: NSG 5530

NSG 56101 Soins infirmiers de niveau avancé en soins de santé primaires (Partie 1 de 2)
Rôle de l’infirmière en pratique de niveau avancé. Fondements théoriques, concepts et stratégies en soins de santé primaires. Le stage permet d’assumer les fonctions de consultante, éducatrice, chercheuse, leader et clinicienne dans un milieu de soins primaires. (Partie 1 de 2)

Course Component: Lecture
Concomitant : NSG 5530.

NSG 56102 Soins infirmiers de niveau avancé en soins de santé primaires (Partie 2 de 2) (6 units)
Rôle de l’infirmière en pratique de niveau avancé. Fondements théoriques, concepts et stratégies en soins de santé primaires. Le stage permet d’assumer les fonctions de consultante, éducatrice, chercheuse, leader et clinicienne dans un milieu de soins primaires. (Partie 2 de 2)

Course Component: Lecture
Préalable: NSG 56101

NSG 5620 Soins infirmiers de niveau avancé en milieu de soins tertiaires (6 crédits)

Volet : Cours magistral
Corequisite: NSG 5130.Prerequisite: NSG 5530
NSG 56201 Soins infirmiers de niveau avancé en milieu de soins tertiaires (Partie 1 de 2)
Rôle de l'infirmière en pratique de niveau avancé. Fondements théoriques, concepts et stratégies reliés aux soins des patients et de leurs familles en situation de soins complexes. Le stage permet d'assumer les fonctions de consultante, éducatrice, chercheuse, leader et clinicienne en milieu de soins tertiaires. (Partie 1 de 2)
Course Component: Lecture
Concomitant: NSG 5530

NSG 56202 Soins infirmiers de niveau avancé en milieu de soins tertiaires (Partie 2 de 2) (6 units)
Rôle de l'infirmière en pratique de niveau avancé. Fondements théoriques, concepts et stratégies reliés aux soins des patients et de leurs familles en situation de soins complexes. Le stage permet d'assumer les fonctions de consultante, éducatrice, chercheuse, leader et clinicienne en milieu de soins tertiaires. (Partie 1 de 2)
Course Component: Lecture

NSG 5750 Physiopathologie pour infirmières et infirmiers praticiens (3 crédits)
Examen des concepts théoriques et pratiques reliés à la physiopathologie comme fondement de la pratique de niveau avancé des soins infirmiers. Exploration des changements aux fonctions physiologiques en mettant l'accent sur les modifications liées à l'âge, aux troubles aigus, épisodiques et chroniques rencontrés dans la pratique en soins de santé primaires. Cours pour étudiantes CSSPIIP seulement. Séminaire : 3 heures / semaine.
Volet : Cours magistral

NSG 57501 Physiopathologie pour infirmières et infirmiers praticiens (Partie 1 de 2)
Examen des concepts théoriques et pratiques reliés à la physiopathologie comme fondement de la pratique de niveau avancé des soins infirmiers. Exploration des changements aux fonctions physiologiques en mettant l'accent sur les modifications liées à l'âge, aux troubles aigus, épisodiques et chroniques rencontrés dans la pratique en soins de santé primaires. Séminaire : 3 heures / semaine. (Partie 1 de 2)
Volet : Cours magistral
Cours pour étudiantes CSSPIIP seulement.

NSG 57502 Physiopathologie pour infirmières et infirmiers praticiens (Partie 2 de 2) (3 crédits)
Examen des concepts théoriques et pratiques reliés à la physiopathologie comme fondement de la pratique de niveau avancé des soins infirmiers. Exploration des changements aux fonctions physiologiques en mettant l'accent sur les modifications liées à l'âge, aux troubles aigus, épisodiques et chroniques rencontrés dans la pratique en soins de santé primaires. Séminaire : 3 heures / semaine. (Partie 2 de 2)
Volet : Cours magistral
Préalable: NSG 57501. Cours pour étudiants CSSPIIP seulement.

NSG 5760 Rôles et responsabilités des infirmières et infirmiers praticiens (3 crédits)
Comparaison et mise en contraste des cadres de référence en pratique de soins infirmiers de niveau avancé et d'autres cadres connexes afin de développer, d'intégrer, de soutenir, et d'évaluer le rôle de l'infirmière et de l'infirmier praticien en soins de santé primaires. Analyse critique et élaboration de stratégies pour la mise en œuvre de compétences en pratique de soins infirmiers de niveau avancé axés sur la communauté. Séminaire : 3 heures / semaine.
Volet : Cours magistral
Cours réservé aux étudiantes en soins de santé primaires.
NSG 5780 Méthodes thérapeutiques en soins de santé primaires I (3 crédits)
Volet : Cours magistral
Co-requis : NSG 5370.

NSG 5785 Méthodes thérapeutiques en soins de santé primaires II (3 crédits)
Volet : Cours magistral
Préalable : NSG 5780. Concomitants : NSG 5775.

NSG 5801 Stage d'intégration (12 crédits)
Synthèse des compétences essentielles à la pratique des soins infirmiers de niveau avancé afin de dispenser des soins de santé primaires aux clients à tous les âges de la vie. Autonomie, prise de décision et analyse critique à l'égard des enjeux organisationnels et systémiques qui exercent une influence sur l'étendue de la pratique, la responsabilisation professionnelle et les résultats attendus. Cours pour étudiantes CSSPIIP seulement.
Volet : Cours magistral
Préalables : NSG 5750, NSG 5760, NSG 5770, NSG 5775, NSG 5780 et NSG 5785.

NSG 6115 Design of Multiple Interventions in Community Health (3 crédits)
Theoretical basis for the design and evaluation of multistrategy and multi-level community health programs. Key design issues including synergies among interventions, intervention adaptation for contextual environment and implementation barriers. Integrated theories, planning tools and evaluation strategies to be discussed, using multiple intervention case studies.
Course Component: Lecture
Prerequisites: NSG 5130; NSG 5210 (or 5220); NSG 5140; or equivalents

NSG 6133 Decision Making in Clinical Practice (3 units)
Examination of decision models as they relate to decision making at the patient, practitioner, and policy maker levels. Study of the patient decision making process. Exploration of decision support strategies and evaluation of practitioner’s decision support skills.
Course Component: Lecture

NSG 6134 Educator's Role in Advanced Nursing Practice (3 units)
Course Component: Lecture

NSG 6135 End of Life Care: Palliative (3 units)
Philosophy and practice of palliative/end of life care across the lifespan and in diverse health settings. Critical examination of theory, research, practice and policy issues related to care of individuals and families facing life threatening illness. Exploration of concepts of death, dying, bereavement within health care systems, culture, and society using an interprofessional approach.
Course Component: Lecture

NSG 6140 Qualitative Research in Nursing and Health Sciences (3 units)
Advanced qualitative research approaches including data analysis methods used in Nursing and other health disciplines.
Course Component: Lecture
Prerequisite: NSG 5140.

NSG 6150 Historical Context in Nursing Practice (3 units)
Historical context for selected nursing practice topics and leadership styles. Nursing and health care from the 19th to the late 20th century from a feminist and social history stand point. Perspectives and patterns of explanation for past nursing practices. Appraisal of primary and secondary sources, methods and theoretical approaches.
Course Component: Lecture

NSG 6160 Policy, Political Action and Change in Health Care (3 units)
Policy analysis, political action, organization and change theories. Acquisition of advanced nursing practice skills in policy and organizational analysis, application of change theory, lobbying, negotiating and strategizing.
Course Component: Lecture

NSG 6170 Sociocultural History of the Body (3 units)
This graduate seminar examines the body in terms of object of history as understood by the health professionals. Topics such as hygiene and the social image of the body, as well as the history of illness and death are covered.
Course Component: Lecture

NSG 6401 Clinical Project in Advanced Nursing Practice (6 crédits)
Utilization of theory and evidence based practices relevant to a clinical field. Clinical practicum structured around the design, implementation, and evaluation of a clinical project.
Volet: Cours magistral
Prerequisites: NSG 5210 or NSG 5220, or NSG 5360 (for PHCNP students only) and NSG 5140.

NSG 64011 Clinical Project in Advanced Nursing Practice (Part 1 of 2)
Utilization of theory and evidence based practices relevant to a clinical field. Clinical practicum structured around the design, implementation, and evaluation of a clinical project. (Part 1 of 2)
Volet / Course Component: Cours magistral / Lecture
Prerequisites: NSG 52101 and NSG 52102 or NSG 52201 and NSG 52202, or NSG 53601 and NSG 53602; and NSG 5140.

NSG 64012 Clinical Project in Advanced Nursing Practice (Part 2 of 2) (6 crédits / 6 units)
Utilization of theory and evidence based practices relevant to a clinical field. Clinical practicum structured around the design, implementation, and evaluation of a clinical project. (Part 2 of 2)
Volet / Course Component: Cours magistral / Lecture
Prerequisite: NSG 64011
NSG 6533 Prise de décisions en situation clinique (3 crédits)
Examen des modèles de décision au niveau de la prise de décisions du patient, de l'intervenant et des prises de positions politiques. Étude du processus décisionnel du patient. Exploration des décisions entourant les stratégies de soutien et évaluation des compétences du praticien.
Volet : Cours magistral

NSG 6534 Rôle d'éducatrice de l'infirmière en pratique de niveau avancé (3 crédits)
Enjeux de la formation clinique en sciences infirmières et autres disciplines. Théories d'enseignement/apprentissage, modèles et stratégies pédagogiques. Éléments essentiels à l'identification des besoins d'apprentissage, au développement d'un plan d'enseignement pour infirmières, clients, familles, et autres professionnels de la santé. Principes et méthodes d'évaluation formatif et sommative.
Volet : Cours magistral

NSG 6535 Soins palliatifs et de fin de vie : Une approche interprofessionnelle (3 crédits)
Philosophie et pratique des soins palliatifs et de fin de vie, au long de l'existence et dans divers milieux de santé. Examen critique de la théorie, la recherche, la pratique et les problématiques d'ordre politique associées aux soins des personnes et des familles aux prises avec une maladie mortelle. Exploration des concepts de mort, d'agonie et de deuil dans les systèmes de soins de santé, la culture et la société et selon une approche interprofessionnelle.
Volet : Cours magistral

NSG 6540 Recherche qualitative en sciences infirmières et en sciences de la santé (3 crédits)
Étude approfondie des approches en recherche qualitative et des modalités d'analyse de données utilisées en sciences infirmières et autres disciplines de la santé.
Volet : Cours magistral
Préalable : NSG 5540

NSG 6550 Contexte historique en sciences infirmières (3 crédits)
Contexte historique pour certains thèmes et styles de leadership. Approche féministe et sociale dans l'étude des sciences infirmières de la fin du XIXe siècle jusqu'au milieu du XXe. Perspectives et analyse des événements d'antan dans la profession. Analyse des sources primaires et secondaires, des méthodes et des approches théoriques.
Volet : Cours magistral

NSG 6560 Politique, action politique et changement en soins de santé (3 crédits)
Analyse des politiques, action politique et théories de l'organisation et du changement. Développement d'habiletés nécessaires à l'infirmière en pratique de niveau avancé en regard de l'analyse politique et organisationnelle, l'application de la théorie du changement, le lobbying, la négociation et la formulation de stratégies.
Volet : Cours magistral

NSG 6570 Histoire socioculturelle du corps (3 crédits)
Ce séminaire aux études supérieures porte sur le corps en tant qu'objet de l'histoire, tel que compris par les professionnels de la santé. Des sujets tels l'hygiène et l'image sociale du corps, ainsi que l'histoire de la maladie et de la mort y sont abordés.
Volet : Cours magistral

NSG 6801 Projet clinique en pratique des soins infirmiers de niveau avancé (6 crédits)
Utilisation de la théorie et des évidences systématiques pertinentes au domaine de spécialisation choisi. Stage structuré autour de la planification, de l'exécution et de l'évaluation d'un projet clinique.
Volet : Cours magistral
Préalables : NSG 5610 ou NSG 5620, ou NSG 5760 (pour étudiantes en SSPIH seulement) et NSG 5540.

NSG 68011 Projet clinique en pratique des soins infirmiers de niveau avancé (Partie 1 de 2)
Utilisation de la théorie et des évidences systématiques pertinentes au domaine de spécialisation choisi. Stage structuré autour de la planification, de l'exécution et de l'évaluation d'un projet clinique. (Partie 1 de 2)
Volet / Course Component: Cours magistral / Lecture
Préalables : NSG56101 et NSG56102; ou NSG56201 et NSG56202; ou NSG57601 et NSG57602; et NSG 5540.

NSG 68012 Projet clinique en pratique des soins infirmiers de niveau avancé (Partie 2 de 2) (6 crédits / 6 units)
Utilisation de la théorie et des évidences systématiques pertinentes au domaine de spécialisation choisi. Stage structuré autour de la planification, de l'exécution et de l'évaluation d'un projet clinique. (Partie 2 de 2)
Volet / Course Component: Cours magistral / Lecture

NSG 6998 Thèmes en sciences infirmières / Special Topics in Nursing (3 crédits / 3 units)
La recherche et l'expertise dans certains secteurs de spécialisation des soins infirmiers. Peut comporter un stage. Thèmes à approuver au préalable par la Direction du programme. / Research and advanced practice in a specialized area of nursing. May include a clinical practicum. Program approval required for topic selection.
Volet / Course Component: Cours magistral / Lecture

NSG 6999 Études dirigées / Directed Studies (3 crédits / 3 units)
Approfondissement des connaissances dans un domaine d'intérêt particulier, avec l'approbation du programme. / Study of an area of particular interest in greater depth. Program approval is required.
Volet / Course Component: Cours magistral / Lecture

NSG 7100 Theoretical and Philosophical Perspectives in Nursing (3 units)
Critical analysis of nursing knowledge development and the influence on nursing research and practice. Comparison and contrast of theories and philosophies in nursing with an emphasis on substantive areas of nursing that are of interest to the student. Course is reserved for PhD students.
Course Component: Lecture

NSG 7103 Decision Making in Nursing (3 units)
Analysis and synthesis of decision and change models at client, practitioner and policy maker levels. In-depth exploration of selected conceptual, methodological, and design challenges to improve decision-making capacities of populations or to promote uptake of evidence-based nursing practices. Course is reserved for PhD students.
Course Component: Lecture

NSG 7104 Evaluating Complex Nursing Interventions (3 units)
Discussion of design issues associated with complex interventions. Exploration of strategies for developing, implementing, and evaluating programs targeted to changing multiple levels of health care. Analysis of models, evidence, and policies appropriate to intervention design and examination of barriers to effective change. Course is reserved for PhD students.
Course Component: Lecture
NSG 7105 Research Seminar I (3 units)
In-depth coverage and critical analysis of diverse research problems. Development of the research project through peer discussions, and presentations by experts. Course reserved for PhD students.
Course Component: Seminar

NSG 7106 Research Seminar II (3 units)
In-depth coverage and critical analysis of diverse research design methods. Development of the thesis proposal through peer discussions, and presentations by experts.
Course Component: Seminar
Prerequisite: NSG 7105. Course reserved for PhD students.

NSG 7110 Doctoral Seminar (3 units)
Drafting and finalizing the thesis proposal, which is presented and defended orally. Graded S (Satisfactory) / NS (Not satisfactory).
Course Component: Seminar
Prerequisites: NSG 7100, NSG 7105, NSG 7106 and EDU 7193 or EDU 8190.

NSG 7500 Perspectives philosophiques et théoriques en sciences infirmières (3 crédits)
Analyse critique du développement des connaissances en soins infirmiers et de l'influence sur la recherche infirmière et la pratique. Comparaison et contraste de théories et philosophies de soins infirmiers avec un accent sur les zones de fond de soins infirmiers qui sont d'intérêt pour l'étudiant. Cours réservé aux doctorants.
Volet : Cours magistral

NSG 7505 Séminaire de recherche I (3 crédits)
Étude approfondie de diverses problématiques de recherche et analyse critique des écrits qui s'y rapportent. Développement du projet de thèse grâce à des discussions de groupe et des présentations par des experts. Cours réservé aux doctorants.
Volet : Séminaire

NSG 7506 Séminaire de recherche II (3 crédits)
Étude approfondie de divers devis de recherche et analyse critique des écrits qui s'y rapportent. Développement du projet de thèse grâce à des discussions de groupe et des présentations par des experts. Cours réservé aux doctorants.
Volet : Séminaire
Préalable : NSG 7505.

NSG 7510 Séminaire doctoral (3 crédits)
Rédaction et mise au point du projet de thèse, qui est présenté et soutenu oralement. Noté S (satisfaisant) ou NS (non satisfaisant).
Volet : Séminaire
Préalables : NSG 7500, NSG 7505, NSG 7506 et EDU 7593 ou EDU 8590.

NSG 7999 Thèse de maîtrise / Thesis
Volet / Course Component: Recherche / Research
Préalables : NSG 5530, NSG 5540, NSG 5592 et NSG 56210 ou NSG 5620. / Prerequisites: NSG 5130, NSG 5140, NSG 5192 and NSG 5210 or NSG 5220.
