Comprehensive Examination

The comprehensive examination (ESP 9998) includes a written and an oral component, must be completed within 18 months of initial enrollment in the program. Its purpose is to test the candidates' mastery of their field as well as their knowledge of their research topic.

PhD Thesis

Students must complete the PhD Thesis (THD 9999). Upon admission, students will be assigned a professor in their area of interest who will act as their academic advisor and will normally become their thesis director. The thesis topic will be determined by the student in consultation with the thesis director and will be related to the latter's area of expertise. Shortly after successfully completing the comprehensive examination, the student must submit a thesis project for the approval of the thesis committee.

Duration of Program

Students are expected to complete all requirements within four years. The maximum time permitted is six years from the date of initial enrollment in the program.

Minimum Standards

The passing grade in all courses is C+. Students who fail two courses (equivalent to 6 units), the thesis proposal, or whose research progress is deemed unsatisfactory are required to withdraw.

Thesis Advisory Committee

During the first terms of the program, a thesis advisory committee (TAC) is formed for the candidate. The Committee's membership will be determined by the specific interests of the candidate. It will be composed of the supervisor and 2-3 additional professors. At least one member of the thesis committee, in addition to the supervisor, must be from the Faculty of Arts. The TAC is responsible for guiding the student throughout the program, including course selection, the comprehensive examination, thesis proposal, and thesis defense.

A meeting between the student and the Thesis Advisory Committee will take place at least once per term. The thesis examining board may include members who are not part of the TAC.
