

# DOCTORATE IN PHILOSOPHY TRANSLATION STUDIES AND SPECIALIZATION CANADIAN STUDIES

The School of Translation and Interpretation (STI) offers graduate programs leading to the degrees of Master of Arts in Translation Studies (MA), Master in Conference Interpreting (MCI) and Doctor of Philosophy (PhD) in Translation Studies.

## Doctoral Program

The primary objective of the doctoral program in translation studies is to produce qualified scholars in the field for academic teaching and research.

The doctoral program will focus on:

- Theories, history and pedagogy of translation as inter-lingual and intercultural communication.
- Lexicology, terminology, and technologies as applied to translation.

Since translation is interdisciplinary, the doctoral program may collaborate with disciplines in other units such as Law, English, Canadian Studies, French, Modern Languages and Literatures, Linguistics, Philosophy, as well as the School of Information Technology and Engineering (SITE). However, the administration of the program is the sole responsibility of the School of Translation and Interpretation.

This full-time program consists of four courses, a comprehensive exam, and a thesis.

The department participates in a collaborative program in Canadian Studies at the PhD level. For more information on this program, see "Admission Requirements."

Because of its strength in relevant areas, its bilingual character and its location in the national capital, the University of Ottawa is uniquely positioned to offer a collaborative program leading to a specialization in Canadian Studies at the doctoral level. The program is especially designed for doctoral students in selected programs in the humanities and the social sciences who wish to enrich their training in a particular discipline by including an interdisciplinary component.

## Languages

Most seminars are bilingual, that is, they may be conducted in French or English. The student's research may be conducted not only on French and English, but also on a third language, subject to the conditions stipulated under "Additional Requirements".

The programs are governed by the academic regulations (<https://www.uottawa.ca/about-us/leadership-governance/policies-regulations/>) in effect for graduate studies.

## Admission Requirements

For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit

the specific requirements (<https://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements/>) webpage.

MA in Translation Studies or equivalent, with a minimum average of B+ (75%). Applicants are required to submit a one- or two-page summary of their proposed research project. Applicants are also required to respond to a questionnaire concerning their background preparation.

Students with a master's containing a translation component but which is not equivalent to a master's in translation studies may be considered for admission at the master's level, with the possibility of transferring into the doctoral program after four courses, if they obtain an average of A- (80%).

Students enrolled in the master's program in Translation Studies at the University of Ottawa who have obtained excellent results may exceptionally be admitted into the doctoral program without a master's thesis. Please note that the minimal admission average requirements for the doctoral program must also be met. To take advantage of this option, they must: a) obtain A- average in six master's courses, and b) submit a major research paper of about 30 pages (TRA 7998). A committee will evaluate the research potential of the paper. Admission will be dependent on the availability of a thesis supervisor in the applicant's area of research interest.

## Transfer from Master's to PhD

In exceptional circumstances, it is possible to transfer from the MA program at the School of Translation and Interpretation (STI) directly into the PhD program under the following conditions:

- Completion of the 3 mandatory MA courses, plus one more MA course, with a grade of A (85%) in each course;
- Completion of a 40-page research paper (TRA 7998) under the supervision of a professor who is the potential PhD thesis supervisor;
- Written recommendation for transfer from the supervisor of the paper and from the Graduate Studies Committee.

The transfer must take place within sixteen months of initial enrollment in the master's. Students permitted to transfer will complete a total of 8 courses (24 units), 6 courses while enrolled in the master's and 2 while enrolled in the PhD. Following transfer, the following requirements must be met: 2 courses (6 units), the comprehensive exam, the thesis proposal and the thesis.

## Language Requirements

Students must meet one of the following requirements:

- Proficiency in English and French. Knowledge of a third language will be an asset.  
**or**
- Proficiency in English and another language. In this case, a good passive knowledge of French is required.  
**or**
- Proficiency in French and another language. In this case, a good passive knowledge of English is required.

The School of Translation and Interpretation (STI) reserves the right to test the linguistic knowledge of applicants.

## Admission Procedure

Applications for admission are reviewed by the Graduate Studies Committee of the School of Translation and Interpretation, and must also meet the general requirements in effect for graduate studies. In addition to completing our on-line application and paying the application fee to the Ontario Universities' Application Centre, students must also assemble all relevant documentation and forward the complete application package to the director of the School of Translation and Interpretation. Applications will not be processed without the application fee and the complete file.

To find the application deadline, please check the "program-specific requirements" under **Application Procedures and Information** at the following address: [www.grad.uottawa.ca/apply](http://www.grad.uottawa.ca/apply) (<http://www.grad.uottawa.ca/apply/>).

## Collaborative Program

The School of Translation and Interpretation is a participating unit in the collaborative program in Canadian Studies (PhD level only). This program has been established for students wishing to enrich their training in Translation by including an interdisciplinary component in Canadian Studies. The seminar (CDN 6520 or CDN 6910) fits into the departmental course requirements and does not add to the number of courses required for the PhD in Translation Studies.

To be admitted to the program, students must be enrolled in or have successfully completed at least one graduate course in history with Canadian content. The mention "Specialization in Canadian Studies" will be added to the diploma of students who pass the seminar (CDN 6520 or CDN 6910) and successfully defend a thesis on a Canadian topic in Translation.

## Program Requirements

Requirements for this program have been modified. Please consult the 2017-2018 calendars (<http://catalogue.uottawa.ca/en/archives/>) for the previous requirements.

## Doctoral Program in Translation Studies

### Compulsory Courses:

TRA 6984	Developments in Translation Studies I	3 Units
TRA 6985	Developments in Translation Studies II	3 Units
3 elective course units in translation (TRA) at the graduate level <sup>1,2</sup>		3 Units

### Comprehensive Examination:

TRA 9996	Comprehensive Examination
----------	---------------------------

### Defence of Thesis Project:

TRA 9997	Defence of Thesis Project
----------	---------------------------

### Thesis:

THD 9999	Doctoral Thesis
----------	-----------------

### Note(s)

1

These courses, chosen in consultation with the student's faculty advisor, may be taken in Translation and/or in other related fields.

2

Upon admission, one or two additional or substitute courses at the 5000 or 6000 level may, at the discretion of the STI, be added to complete the student's background.

## Collaborative Program in Canadian Studies

Students enrolled in the collaborative program will be asked to meet both the requirements of their primary program and those of the collaborative program. The requirements of the collaborative program will serve as partial fulfillment of the requirements of their primary program.

### Compulsory Courses:

3 course units from:	3 Units
CDN 6520 Séminaire sur la francophonie canadienne <sup>1</sup>	
CDN 6910 Seminar in Canadian Studies	

Submission and successful defence of a thesis on a Canadian topic in the participating unit.

The proposed topic must be approved by both the participating unit and the Canadian Studies Graduate Committee. At least one of the examiners of the thesis must be a person chosen in consultation with the executive committee of the Institute of Canadian and Aboriginal Studies.

### Notes(s)

1

Before enrolling in CDN 6520, students must check to see whether this course can replace a 3-unit course in their primary program. CDN 6520 is offered only in French.

## Transfer from Master's to PhD

The transfer must take place within 16 months of initial enrollment in the master's. Students permitted to transfer will complete a total of 8 courses (24 units): 6 courses while enrolled in the master's and 2 while enrolled in the PhD. Following transfer, the following requirements must be met: 2 courses (6 units), the comprehensive exam, the thesis proposal and the thesis.

## Minimum Standards

The passing grade in all courses is C+. Students who fail two courses (equivalent to 6 units), the thesis proposal, or whose research progress is deemed unsatisfactory are required to withdraw.

## Duration of the Program

Students are expected to complete all requirements within four years. The maximum time permitted is six years from the date of initial enrollment in the program.

## Thesis Advisory Committee (TAC)

During the first term of the program, a thesis advisory committee (TAC) is formed for the candidate. The Committee's membership will be determined by the specific interests of the candidate. It will be composed of the supervisor and 2-3 additional professors. At least one member of the thesis committee, in addition to the supervisor, must be from the Faculty of Arts. The TAC is responsible for guiding the student throughout the program, including course selection, the comprehensive examination, thesis proposal, and thesis defense.

A meeting between the student and the Thesis Advisory Committee will take place at least once per term. The thesis examining board may include members who are not part of the TAC.

## Research

### Research at the University of Ottawa

Located in the heart of Canada's capital, a few steps away from Parliament Hill, the University of Ottawa ranks among Canada's top 10 research universities. Our research is founded on excellence, relevance and impact and is conducted in a spirit of equity, diversity and inclusion.

Our research community thrives in four strategic areas:

- Creating a sustainable environment
- Advancing just societies
- Shaping the digital world
- Enabling lifelong health and wellness

From advancing healthcare solutions to tackling global challenges like climate change, the University of Ottawa's researchers are at the forefront of innovation, making significant contributions to society and beyond.

### Research at the Faculty of Arts

The Faculty of Arts is proud of the state of the art research conducted by its professors. In the spirit of showcasing its research to the university community as well as to the general public, the Faculty has created three activities: Dean's Lecture Series, Treasures of the Library, and Excellence Lectures.

Uniweb does not list all professors authorized to supervise research projects at the University of Ottawa.**

## Courses

### TRA 5102 Translation Theory (3 units)

A critical and comparative survey of the many theoretical approaches to understanding translation. Structuralist, descriptive, functionalist models, cultural, postcolonial, feminist and sociological approaches, and an overview of systems theory perspectives.

**Course Component:** Seminar

### TRA 5103 Computers and Translation (3 units)

Overview of advanced computational aids for human translation, with some hands-on practice (e.g. terminology management, desk-top publishing, grammar checking). Survey of machine and machine-aided translation. Analysis of machine translation output.

**Course Component:** Seminar

### TRA 5106 Language and Translation (3 units)

A historical and more contemporary survey of the linguistic concepts that are of use in translation studies and related fields.

**Course Component:** Seminar

### TRA 5116 Translation Workshop (Chinese-English) (3 units)

An intensive advanced course in the translation of pragmatic texts from Chinese to English. Focus is on producing excellent English, the student second language.

**Course Component:** Seminar

### TRA 5131 Translating general texts: Methods and techniques (3 units)

Combining theory and practical exercises to translate popular texts from a range of fields (journalism, popular science, advertising) from French to English, with and without computer tools. Discovering research and transfer skills required to advance to more challenging and specialized texts.

**Course Component:** Lecture

### TRA 5132 Translating general texts: Strategies and solutions (3 units)

Continuing practice translating popular texts (journalism, popular science, advertising) from French to English, with and without computer tools. Mastering the principles, concepts, and skills required to identify and overcome translation challenges, with an increasing focus on ensuring consistency with the source text.

**Course Component:** Lecture

### TRA 5133 Writing better (3 units)

Refining your writing style by exploring principles and techniques of communication in traditional and digital contexts, with and without computer tools. Adapting your writing to various audiences and purposes. Eliminating interference from other languages and producing idiomatic texts.

**Course Component:** Lecture

### TRA 5134 Translating for specialized fields: Producing translations (3 units)

Using various techniques (e.g., translating, postediting, bilingual editing) to produce translations from French to English in increasingly specialized fields (e.g., administrative, technical, scientific), with their associated terminological and stylistic conventions. Making effective and critical use of appropriate tools and techniques. Adapting translations to various media, contexts and situations.

**Course Component:** Lecture

### TRA 5135 Translation specialization I (3 units)

Assessing needs and producing fit-for-purpose documents in a specialized sub-field in high demand. Identifying, evaluating and using domain-specific resources for knowledge acquisition and text production, with and without computer tools. Adapting texts for key groups in the domain. This course may be taken twice in different subject fields.

**Course Component:** Lecture

**TRA 5136 Translation specialization II (3 units)**

Assessing needs and producing fit-for-purpose documents in a specialized sub-field in high demand. Identifying, evaluating and using domain-specific resources for knowledge acquisition and text production, with and without computer tools. Adapting texts for key groups in the domain. This course may be taken twice in different subject fields.

**Course Component:** Lecture

**TRA 5514 Terminologie transsystémique et documentation - bijuridisme et bilinguisme (3 crédits)**

**Volet :** Séminaire

**TRA 5515 Traduction législative et réglementaire de l'anglais vers le français I (3 crédits)**

**TRA 5534 Traduction juridique spécialisée de l'anglais vers le français I - valeurs mobilières (3 crédits)**

**Volet :** Séminaire

**TRA 5541 Traduire des textes généraux : méthodes et techniques (3 crédits)**

Combiner théorie et exercices pratiques pour traduire du français vers l'anglais des textes populaires issus de domaines variés (journalisme, vulgarisation scientifique, publicité), avec et sans outils informatiques. Découvrir les compétences de recherche et de transfert nécessaires pour progresser vers des textes plus complexes et spécialisés.

**Volet :** Cours magistral

**TRA 5542 Traduire des textes généraux : stratégies et solutions (3 crédits)**

Perfectionner la traduction du français vers l'anglais de textes populaires (journalisme, vulgarisation scientifique, publicité), avec et sans outils informatiques. Maîtriser les principes, les concepts et les compétences nécessaires pour identifier et surmonter les défis de traduction, en mettant progressivement l'accent sur la cohérence avec le texte source.

**Volet :** Cours magistral

**TRA 5543 Perfectionner la rédaction (3 crédits)**

Peaufiner votre rédaction en explorant des principes et techniques mises en œuvre pour communiquer dans différents contextes traditionnels et numériques, avec et sans outils informatiques. Adapter des textes produits à différents destinataires et buts. Éliminer des interférences d'autres langues pour produire des textes idiomatiques.

**Volet :** Cours magistral

**TRA 5544 Traduire pour des domaines spécialisés : Produire des traductions (3 crédits)**

Utiliser diverses techniques (p. ex. traduction, post-édition, révision bilingue) pour produire des traductions du français vers l'anglais dans des domaines de plus en plus spécialisés (administratifs, techniques, scientifiques), avec leurs conventions terminologiques et stylistiques. Employer les outils et techniques appropriés de manière efficace et critique. Adapter les traductions à divers médias, contextes et situations.

**Volet :** Cours magistral

**TRA 5545 Spécialisation en traduction I (3 crédits)**

Évaluer les besoins et produire des documents adaptés à un sous-domaine spécialisé et très en demande. Identifier, évaluer et utiliser des ressources spécifiques au domaine en question pour acquérir des connaissances et produire des textes, avec et sans outils informatiques. Adapter des textes pour les groupes clés du domaine. Ce cours peut être suivi deux fois dans des domaines différents.

**Volet :** Cours magistral

**TRA 5546 Spécialisation en traduction II (3 crédits)**

Évaluer les besoins et produire des documents adaptés à un sous-domaine spécialisé et très en demande. Identifier, évaluer et utiliser des ressources spécifiques au domaine pour acquérir des connaissances et produire des textes, avec et sans outils informatiques. Adaptation des textes pour les groupes clés du domaine. Ce cours peut être suivi deux fois dans des domaines différents.
