HONOURS BA IN COMMUNICATION

Ours is the communication and information age. Analyzing how information is gathered, produced and distributed today helps us understand the communication processes that drive a variety of settings: social, cultural, political, organizational, economic and legal. In this program, you will develop critical and analytical skills in order to evaluate the nature and impact of technology and media on society, organizations and interpersonal relations. You will have the opportunity to be exposed to the latest developments in the field of communication (communication strategies, digital media, evolution of the media industry, advertising, crisis communications, negotiations, etc.). The Department of Communication offers courses in two main areas: media studies and organizational communication (internal and external communication in public and private organizations, health communication, organizational change, etc.). Combining theory and practice, our programs develop your critical and analytical skills and prepare you either for a professional career or for advanced studies.

This program is offered in English and in French.

Program Requirements

Co-operative education is available with this program.

The French immersion stream is available with this program.
