HONOURS BSC IN BIOLOGY
- CELLULAR/MOLECULAR OPTION

Recent discoveries and new technologies are revolutionizing the biological sciences, placing increasing emphasis on integrating knowledge across all levels of organization, from molecules to ecosystems.

Our programs give students both the intellectual tools and the hands-on experience they need to generate new knowledge and contribute to debates on issues as diverse as land management, conservation and endangered species, disease prevention and management, stem cell research and genetically modified organisms.

Learning takes place through traditional classroom instruction, innovative laboratory projects with state-of-the-art technologies and a strong basic research program in which undergraduate students at all levels are intensively mentored in a research lab.

The Honours program in biology provides the opportunity for in-depth study within one or more biological disciplines. Students can concentrate in a particular area by choosing one of three options — cellular and molecular biology, physiology and ecology, evolution and behaviour. This route includes a compulsory independent research project designed to prepare students for graduate studies. Alternatively, students can choose to pursue diverse interests by selecting a general course of study that will include a number of advanced courses.

The major in biology introduces students to cell biology, genetics, evolution, ecology and physiology (both plant and animal). The major is combined with either another major or a minor and allows students to pursue diverse interests while opening the door to graduate studies or a career in the life sciences.

The minor in biology is a flexible program that allows students to select a subset of biology courses.

This program is offered in English and in French.

Program Requirements
Co-operative education is available with this program.

The extended French stream is available with this program.

Requirements for this program have been modified. Please consult the 2017-2018 calendars (http://catalogue.uottawa.ca/en/archives) for the previous requirements.

3 optional course units in English (ENG) at the 1000 or 2000 level 3 Units

BIO 1130 Introduction to Organismal Biology 3 Units
BIO 1140 Introduction to Cell Biology 3 Units
CHM 1311 Principles of Chemistry 3 Units
CHM 1321 Organic Chemistry I 3 Units
GEO 1111 Introduction to Earth Systems 3 Units
MAT 1330 Calculus for the Life Sciences I 3 Units
MAT 1332 Calculus for the Life Sciences II 3 Units
PHY 1321 Principles of Physics I 3 Units

BCH 2333 Introduction to Biochemistry 3 Units
BIO 2129 Ecology 3 Units
BIO 2133 Genetics 3 Units
BIO 2135 Animal Form and Function 3 Units
BIO 2137 Introduction to Plant Science: Biodiversity to Biotechnology 3 Units
CHM 2120 Organic Chemistry II 3 Units
MAT 2379 Introduction to Biostatistics 3 Units
BIO 4920 Seminar I Evaluating Science 1.5 Units
BIO 4921 Seminar II Developing and Communicating Science 1.5 Units

Cellular/Molecular Option - Block A
BIO 3153 Cell Biology 3 Units
BIO 3170 Molecular Biology 3 Units
BIO 4009 Honours Research 9 Units

Cellular/Molecular Option - Block B
3 course units from:
BIO 3151 Molecular Biology Laboratory
BIO 3152 Cell Biology Laboratory

Cellular/Molecular Option - Block C
6 course units from:
BCH 3120 General Intermediary Metabolism
BIO 3102 Molecular Evolution
BIO 3119 Population Genetics
BIO 3124 General Microbiology
BIO 3126 General Microbiology Laboratory
BIO 3147 Developmental Biology
BIO 3360 Computational Tools for Biological Sciences
BCH 4172 Topics in Biotechnology
BIO 4115 Topics in Molecular Genetics
BIO 4140 Plant Developmental Biology
BIO 4144 Plant Biochemistry and Molecular Biology
BIO 4145 Eukaryotic Microbiology
BIO 4158 Applied Biostatistics
BIO 4175 Membrane Physiology
BIO 4537 Génétique évolutive humaine
BPS 3101 Genomics
BPS 4104 Bioinformatics Laboratory

9 optional course units in biology (BIO), biopharmaceutical science (BPS) or environmental science (EVS), ITI 1120, BCH 3120, BCH 3125, BCH 3356, BCH 4122, BCH 4125, BCH 4188 9 Units

3 optional course units in biology (BIO), biopharmaceutical science (BPS) or environmental science (EVS) at the 3000 or 4000 level, BCH 3120, BCH 3125, BCH 3356, BCH 4122, BCH 4125, BCH 4188 3 Units

9 elective course units offered by the Faculty of Arts, the Faculty of Education, the Faculty of Law, the Faculty of Social Sciences or the Telfer School of Management 9 Units

24 elective course units 24 Units

Total: 120 Units

Note(s)
Within your program of study, you must complete a minimum of 15 course units at the 3000 or 4000 level with a laboratory component. A complete list of courses having a laboratory component can be found below. Please note: if a course listed below has already been used to fulfill a compulsory or optional requirement in your program listed above, these course units count towards this total of 15 units.

This message is intended for students registered in the Faculty of Science. If the components of your program of study require common compulsory courses, you will have to replace the units as follows:

1. 1000-level courses must be replaced with elective course units;
2. 2000-level courses and above must be replaced with optional course units from either discipline at the same level or above.

Please note that all programs in the Faculty of Science require a minimum of 12 elective course units from the Faculty of Arts, the Faculty of Education, the Faculty of Law, the Faculty of Social Sciences or the Telfer School of Management. Once you have decided on the replacement courses, please inform the Office of Undergraduate Programs of the Faculty of Science by email at infosci@uOttawa.ca so that we may amend your Academic Advisement accordingly.
