MAJOR IN SOCIOLOGY

Sociology involves the study of societies, specifically their institutions, cultures, and transformations. Sociologists seek to uncover the processes, rules, and norms that govern social relations. They seek to understand issues such as the origins and consequences of social inequalities and collective behaviours. In our programs, students have the opportunity to apply theoretical approaches to real-world cases and learn how to use research tools such as interviewing, discourse analysis, surveys, and statistical analyses. The connection between theory and research enables students to understand a range of contemporary social issues, such as poverty, ethnic relations, deviance, gender relations, international development, power, and technology.

This program is offered in English and in French.

Program Requirements

The table below includes only the discipline-specific courses. Please refer to the Academic Regulations (http://web5.uottawa.ca/admingov/regulations.html) for information on the Honours bachelor’s with double major and the Honours bachelor’s with major and minor.
