MINOR IN APPLIED ETHICS

Ethical issues are taking on a greater importance in society and in our lives. Think, for example, of the questions raised by medical advances that challenge our concepts of life and death, or the privacy issues created by the growing use of the Internet. This multidisciplinary program in ethics is both theoretical and applied. You reflect on fundamental issues in moral and political philosophy and come to understand the nature of ethics issues in health care, business, law, communication, criminology, social work, public affairs and other areas.

This program is offered in English and in French.

Program Requirements

The table below includes only discipline-specific courses. Please refer to the Academic Regulations for information on including a minor to your degree.

Requirements for this program have been modified. Please consult the 2017-2018 calendars for the previous requirements.
