

MICROPROGRAM SIMULATION OF HEALTH EDUCATION

Overview

Please note that the graduate programs in health education offered in French are different from the Health Professions Education programs offered at the Faculty of Education in English. The programs in French are offered through a partnership between the Faculty of Education and the Faculty of Medicine at the University of Ottawa.

Are you a graduate in the health field? Do you wish to be involved or are you already involved in the theoretical and practical training of health professionals in university, clinical and hospital settings as a professor, preceptor, clinical instructor, lecturer, administrator, or manager? This microprogram lays the foundation for the theoretical and practical aspects of simulation in health education and will allow you to deepen your knowledge in the field while strengthening your leadership.

Admission Requirements

The enrollment process for a Microprogram depends on your student status.

Students already admitted and enrolled in a graduate program

Students wishing to pursue a graduate program must apply for, and be admitted to, their graduate program before they enroll in a second Graduate Microprogram identified within their existing program.

If you have already enroll in a graduate studies program and would like to add a microprogram to your program of study, contact your faculty's graduate studies office (<https://www.uottawa.ca/graduate-studies/contact-info/>).

Non-degree students

Students pursuing a Graduate Microprogram, without being admitted to or intending to complete a graduate program, must obtain the prior approval of the academic unit offering the Graduate Microprogram.

Students must meet the following eligibility:

- Hold a bachelor's degree in science, health sciences or an equivalent discipline, or an undergraduate doctorate degree in medicine or pharmacy
- or
- Have relevant work experience
- Have an overall average of at least 70% (B), calculated in accordance with graduate studies guidelines
- Understand and be fluent in the language of instruction: French

If you would like to enroll in a microprogram without being admitted in a graduate studies program, send an email to the Graduate Studies Office of the Faculty of Medicine (gradmed@uottawa.ca) and include the following documents:

- CV
- Copies of transcripts from all universities you have attended

Program Requirements

To meet the requirements of the microprogram, the following two courses must be successfully completed:

Compulsory Courses:

MED 6503	Fondements théoriques de la simulation en enseignement en santé	3 Units
MED 6504	Pratiques de la simulation en enseignement en santé	3 Units
