# JOINT HONOURS BA IN COMMUNICATION AND SOCIOLOGY

### **Communication**

Ours is the communication and information age. Analyzing how information is gathered, produced and distributed today helps us understand the communication processes that drive a variety of settings: social, cultural, political, organizational, economic and legal. In this program, you will develop critical and analytical skills in order to evaluate the nature and impact of technology and media on society, organizations and interpersonal relations. You will have the opportunity to be exposed to the latest developments in the field of communication (communication strategies, digital media, evolution of the media industry, advertising, crisis communications, negotiations, etc.). The Department of Communication offers courses in two main areas: media studies and organizational communication (internal and external communication in public and private organizations, health communication, organizational change, etc.). Combining theory and practice, our programs develop your critical and analytical skills and prepare you either for a professional career or for advanced studies.

# Sociology

Sociology involves the study of societies, specifically their institutions, cultures, and transformations. Sociologists seek to uncover the processes, rules, and norms that govern social relations. They seek to understand issues such as the origins and consequences of social inequalities and collective behaviours. In our programs, students have the opportunity to apply theoretical approaches to real-world cases and learn how to use research tools such as interviewing, discourse analysis, surveys, and statistical analyses. The connection between theory and research enables students to understand a range of contemporary social issues, such as poverty, ethnic relations, deviance, gender relations, international development, power, and technology.

This program is offered in English and in French.

# **Program Requirements**

Co-operative education is available with this program.

The French immersion stream is available with this program.

Requirements for this program have been modified. Please consult the 2022-2023 calendars (http://catalogue.uottawa.ca/en/archives/) for the previous requirements.

### **Basic Skills**

	ENG 1100	Workshop in Essay Writing	3 Units
