

JOINT HONOURS BSOCSC IN FEMINIST AND GENDER STUDIES AND IN SOCIOLOGY

Overview

Feminist and Gender Studies

The Institute of Feminist and Gender Studies offers students exciting interdisciplinary undergraduate and graduate programs that explore women, gender and feminisms. Our teaching and research deal with hot button issues such as globalization, transnationalism, sexualities, colonialism and racism. Courses blend scientific, theoretical and practical knowledge that contributes toward intellectual development and collective efforts for social justice.

Sociology

Sociology involves the study of societies, specifically their institutions, cultures, and transformations. Sociologists seek to uncover the processes, rules, and norms that govern social relations. They seek to understand issues such as the origins and consequences of social inequalities and collective behaviours. In our programs, students have the opportunity to apply theoretical approaches to real-world cases and learn how to use research tools such as interviewing, discourse analysis, surveys, and statistical analyses. The connection between theory and research enables students to understand a range of contemporary social issues, such as poverty, ethnic relations, deviance, gender relations, international development, power, and technology.

This program is offered in English and in French.
