DOCTORATE IN PHILOSOPHY
TRANSLATION STUDIES AND
SPECIALIZATION CANADIAN
STUDIES

The School of Translation and Interpretation (STI) offers graduate programs leading to the degrees of Master of Arts in Translation Studies (MA), Master in Conference Interpreting (MCI) and Doctor of Philosophy (PhD) in Translation Studies.

Doctoral Program
The primary objective of the doctoral program in translation studies is to produce qualified scholars in the field for academic teaching and research.

The doctoral program will focus on:

- Theories, history and pedagogy of translation as inter-lingual and intercultural communication.
- Lexicology, terminology, and technologies as applied to translation.

Since translation is interdisciplinary, the doctoral program may collaborate with disciplines in other units such as Law, English, Canadian Studies, French, Modern Languages and Literatures, Linguistics, Philosophy, as well as the School of Information Technology and Engineering (SITE). However, the administration of the program is the sole responsibility of the School of Translation and Interpretation.

This full-time program consists of four courses, a comprehensive exam, and a thesis.

The department participates in a collaborative program in Canadian Studies at the PhD level. For more information on this program, see “Admission Requirements.”

Because of its strength in relevant areas, its bilingual character and its location in the national capital, the University of Ottawa is uniquely positioned to offer a collaborative program leading to a specialization in Canadian Studies at the doctoral level. The program is especially designed for doctoral students in selected programs in the humanities and the social sciences who wish to enrich their training in a particular discipline by including an interdisciplinary component.

Languages
Most seminars are bilingual, that is, they may be conducted in French or English. The student’s research may be conducted not only on French and English, but also on a third language, subject to the conditions stipulated under “Additional Requirements.”

The programs are governed by the general regulations (http://www.grad.uottawa.ca/Default.aspx?tabid=1807) in effect for graduate studies.

Admission Requirements
For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (https://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements/) webpage.

MA in Translation Studies or equivalent, with a minimum average of B+ (75%). Applicants are required to submit a one- or two-page summary of their proposed research project. Applicants are also required to respond to a questionnaire concerning their background preparation.

Students with a master’s containing a translation component but which is not equivalent to a master’s in translation studies may be considered for admission at the master’s level, with the possibility of transferring into the doctoral program after four courses, if they obtain an average of A- (80%).

Students enrolled in the master’s program in Translation Studies at the University of Ottawa who have obtained excellent results may exceptionally be admitted into the doctoral program without a master’s thesis. Please note that the minimal admission average requirements for the doctoral program must also be met. To take advantage of this option, they must: a) obtain A- average in six master’s courses, and b) submit a major research paper of about 30 pages (TRA 7998). A committee will evaluate the research potential of the paper. Admission will be dependent on the availability of a thesis supervisor in the applicant’s area of research interest.

Transfer from Master’s to PhD
In exceptional circumstances, it is possible to transfer from the MA program at the School of Translation and Interpretation (STI) directly into the PhD program under the following conditions:

- Completion of the 3 mandatory MA courses, plus one more MA course, with a grade of A (85%) in each course;
- Completion of a 40-page research paper (TRA 7998) under the supervision of a professor who is the potential PhD thesis supervisor;
- Written recommendation for transfer from the supervisor of the paper and from the Graduate Studies Committee.

The transfer must take place within sixteen months of initial enrollment in the master’s. Students permitted to transfer will complete a total of 8 courses (24 units), 6 courses while enrolled in the master’s and 2 while enrolled in the PhD. Following transfer, the following requirements must be met: 2 courses (6 units), the comprehensive exam, the thesis proposal and the thesis.

Language Requirements
Students must meet one of the following requirements:

- Proficiency in English and French. Knowledge of a third language will be an asset.
- Proficiency in English and another language. In this case, a good passive knowledge of French is required.
- Proficiency in French and another language. In this case, a good passive knowledge of English is required.

The School of Translation and Interpretation (STI) reserves the right to test the linguistic knowledge of applicants.

This is a copy of the 2022-2023 catalog.
Admission Procedure

Applications for admission are reviewed by the Graduate Studies Committee of the School of Translation and Interpretation, and must also meet the general requirements in effect for graduate studies. In addition to completing our on-line application and paying the application fee to the Ontario Universities’ Application Centre, students must also assemble all relevant documentation and forward the complete application package to the director of the School of Translation and Interpretation. Applications will not be processed without the application fee and the complete file.

To find the application deadline, please check the “program-specific requirements” under Application Procedures and Information at the following address: www.grad.uottawa.ca/apply (http://www.grad.uottawa.ca/apply/).

Collaborative Program

The School of Translation and Interpretation is a participating unit in the collaborative program in Canadian Studies (PhD level only). This program has been established for students wishing to enrich their training in Translation by including an interdisciplinary component in Canadian Studies. The seminar (CDN 6520 or CDN 6910) fits into the departmental course requirements and does not add to the number of courses required for the PhD in Translation Studies.

To be admitted to the program, students must be enrolled in or have successfully completed at least one graduate course in history with Canadian content. The mention “Specialization in Canadian Studies” will be added to the diploma of students who pass the seminar (CDN 6520 or CDN 6910) and successfully defend a thesis on a Canadian topic in Translation.

Program Requirements

Requirements for this program have been modified. Please consult the 2017-2018 calendars (http://catalogue.uottawa.ca/en/archives/) for the previous requirements.

Submission and successful defence of a thesis on a Canadian topic in the participating unit.

The proposed topic must be approved by both the participating unit and the Canadian Studies Graduate Committee. At least one of the examiners of the thesis must be a person chosen in consultation with the executive committee of the Institute of Canadian and Aboriginal Studies.

Notes(s)

1. Before enrolling in CDN 6520, students must check to see whether this course can replace a 3-unit course in their primary program. CDN 6520 is offered only in French.

Transfer from Master's to PhD

The transfer must take place within 16 months of initial enrollment in the master’s. Students permitted to transfer will complete a total of 8 courses (24 units): 6 courses while enrolled in the master’s and 2 while enrolled in the PhD. Following transfer, the following requirements must be met: 2 courses (6 units), the comprehensive exam, the thesis proposal and the thesis.

Minimum Standards

The passing grade in all courses is C+. Students who fail two courses (equivalent to 6 units), the thesis proposal, or whose research progress is deemed unsatisfactory are required to withdraw.

Duration of the Program

Students are expected to complete all requirements within four years. The maximum time permitted is six years from the date of initial enrollment in the program.

Thesis Advisory Committee (TAC)

During the first term of the program, a thesis advisory committee (TAC) is formed for the candidate. The Committee’s membership will be determined by the specific interests of the candidate. It will be composed of the supervisor and 2-3 additional professors. At least one member of the thesis committee, in addition to the supervisor, must be form the Faculty of Arts. The TAC is responsible for guiding the student throughout the program, including course selection, the comprehensive examination, thesis proposal, and thesis defense.

A meeting between the student and the Thesis Advisory Committee will take place at least once per term. The thesis examining board may include members who are not part of the TAC.
Research

Research Fields & Facilities

Located in the heart of Canada’s capital, a few steps away from Parliament Hill, the University of Ottawa is among Canada’s top 10 research universities.

uOttawa focuses research strengths and efforts in four Strategic Areas of Development in Research (SADRs):

- Canada and the World
- Health
- e-Society
- Molecular and Environmental Sciences

With cutting-edge research, our graduate students, researchers and educators strongly influence national and international priorities.

Research at the Faculty of Arts

The Faculty of Arts is proud of the state of the art research conducted by its professors. In the spirit of showcasing its research to the university community as well as to the general public, the Faculty has created three activities: Dean’s Lecture Series, Treasures of the Library, and Excellence Lectures.
