GRADUATE DIPLOMA HEALTH EDUCATION

Overview

Please note that graduate programs in health education in French are different from the education programs in health professions education offered by the Faculty of Education in English. The programs in French are offered through a partnership between the Faculty of Education and the Faculty of Medicine at the University of Ottawa.

Are you a graduate in the health field (medicine, nursing, pharmacy, occupational therapy, physiotherapy, etc.)? Do you wish to be involved or are you already involved in the theoretical and practical training of health professionals in university, clinical and hospital settings as a professor, preceptor, clinical instructor, lecturer, administrator or manager? Courses offered in this graduate program in health education will be of interest to you, in order to:

- Deepen your knowledge and strengthen your leadership in health education
- Improve your teaching and evaluation methods in the classroom or clinical setting
- Develop your expertise in health education research
- Develop your expertise in program design and evaluation in the field of health education

To acquire the tools for your professional success, among its unique programs, the Faculty of Medicine, in partnership with the Faculty of Education, offer you:

- The Graduate Diploma (Dipl.) in Health Education
- The Graduate Diploma (Dipl.) in Health Education (online)

For its part, among its unique programs, the Faculty of Education, in partnership with the Faculty of Medicine, offers you:

- The Master of Education (MEd), Health Education concentration, with coursework option
- The Master of Education (MEd), Health Education concentration, with research paper option
- Master of Arts in Education (MA), Health Education concentration

The University’s location in the heart of Ottawa offers you an exceptional range of programs in both official languages, which enables you to fully enjoy all the benefits of Canada’s capital.

In accordance with University of Ottawa regulations, students have the right to complete their examinations and assignments in either official language.

The programs are governed by the academic regulations in effect for graduate studies.

Admission Requirements

For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (https://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements/) webpage.

To be admitted, one must:

- Hold a bachelor’s degree in science, health sciences or a related field, or an undergraduate doctorate in medicine or pharmacy
- have relevant work experience
- have an overall average of at least 70% (B) calculated according to Graduate Studies guidelines
- understand and be fluent in the language of instruction, which is French

Upon completion of the Graduate Diploma, qualified students meeting admission requirements could apply to one of the related master’s programs (Master of Education, Health Education concentration; Master of Arts in Education Health Education concentration), and, upon admission, complete the requirements for those programs with credits granted for relevant courses already completed in the Diploma. Remaining credits would be assessed individually according to the student’s chosen master’s program.

Program Requirements

Graduate Diploma

The Graduate Diploma in Health Education provides expertise in health education. It is offered in French, jointly by the Faculty of Medicine and the Faculty of Education, and in English in the Faculty of Education. It is possible to register for the degree on a full-time or part-time basis.

A total of 15 credits must be completed to meet the requirements of the Diploma: two compulsory 3-credit courses and three elective 3-credit courses from the concentration (or two 3-credit courses and two 1.5-credit courses).

Compulsory Courses

3 course units from:

- EDU 6531 Enseigner en santé (partie 1)
