**MASTER OF ARTS ANTHROPOLOGY**

Amid social and environmental conditions that are constantly changing, anthropology offers new critical perspectives on the world by highlighting how local and global issues are interconnected. Ethnography, the discipline’s field research method, makes it possible to document in real time a host of complex phenomena pertaining to diverse topics such as medicine, the environment, minorities, the media and indigenousness. Anthropology students have the opportunity to gain first-hand experience, observing and understanding contemporary issues through field research taking place around the world.

The School of Sociological and Anthropological Studies offers a Master of Arts in anthropology program. This MA in anthropology is offered as a full-time and a part-time program, in French and in English. In English, the maximum number of annual admissions is fixed according to the procedure explained in the Admission Requirements section.

Two options are available for the master’s program: the MA with thesis and the MA with research paper. Admissible students may submit a request to add the co-op option to their program.

The program is governed by the general regulations (http://www.grad.ualberta.ca/Default.aspx?tabid=1807) in effect for graduate studies.

**Admission Requirements**

For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (https://www.ualberta.ca/graduate-studies/programs-admission/apply/specific-requirements) webpage.

Students who have a BA with honours or major in anthropology or in another equivalent discipline with a minimum average of 70% (B), calculated in accordance with graduate studies guidelines, may be admitted to the MA program.

Students who have an honours BA with a minimum average of 70% (B) in another discipline, calculated in accordance with graduate studies guidelines, but are considered to have an insufficient academic background may be accepted into a qualifying program, requiring them to complete a maximum of eight courses.

All applicants must be able to understand, speak, and write either English or French proficiently. Applicants whose first language is neither English nor French must provide proof of proficiency in one or the other. The list of acceptable tests is indicated in the “Admission” section of the general regulations in effect for graduate studies.

The maximum number of students admitted annually in the MA in anthropology in English is limited to the average of the students admitted to the French language program in the previous three years. The maximum number of admissions for the current year is available from the secretariat of the School of Anthropological and Sociological Studies.

**Co-op Option**

The MA in Anthropology, in collaboration with the University of Ottawa’s Co-op office, offers a co-op stream to a limited number of students. The co-op option gives selected students the opportunity to acquire practical work experience by completing two one-session (four months) work placements.

The option for the co-op stream is as follows. The first co-op placement will be in the summer of the first year and the second work placement...
will take place in the fall of the second year. Each work term is graded P (Pass) / F (Fail), based on the employer’s report and on a written report completed by the student. The student’s report must be 15 to 20 pages, including appendices. A Regular Professor from the Department will evaluate the student reports.

The units awarded for co-op terms may not be used to obtain equivalences for other courses. In other words, the co-op units are additional to the minimum requirements of the degree.

To remain enrolled in the co-op program, a student must:

• maintain full-time status;
• maintain a 7.0 grade point average; and
• obtain a passing grade for each co-op work term.

Duration of Program

Full-time students are expected to fulfill all requirements of the thesis option within two years, and the research paper option within sixteen months. The maximum time permitted to complete the program is four years from the date of initial enrollment in the program.

Minimum Standards

The passing grade in all courses is C+. Students who fail two courses (equivalent to 6 units) or the research proposal, or whose research progress is deemed unsatisfactory will be withdrawn from the program.
