MASTER OF ELECTRONIC BUSINESS TECHNOLOGIES

Summary
• Degree offered: Master of Electronic Business Technologies (MEBT)
• Registration status options: Full-time; Part-time
• Language of instruction: English
• Program options (expected duration of the program):
  • within two years of full-time study
• Academic units: Faculty of Engineering (http://engineering.uottawa.ca), School of Electrical Engineering and Computer Science (EECS) (http://engineering.uottawa.ca/eecs).

Program Description
Electronic Business Technologies focuses on the integration of information technologies with business processes and strategies within a dynamic legal and business environment. At the base of Electronic Business Technologies is the fact that the application of Internet and information technology to business processes leads to remarkable new ways of conceiving and organizing businesses. This in turn leads to a myriad of innovative modes of management, new organisational structures and information architectures as well as new laws and legal and corporate strategies.

Main Areas of Research
• Electronic Business
  Electronic Business focuses on organizational transformations based on information technologies. Research includes:
  • The identification of best practices and trends.
  • The comparative analysis of new business models.
  • The evaluation of performance based on the introduction of new technologies.
  • The efficacy of the new services and methods in attracting and satisfying customers.
  • The simulation of integrated supply chains.
• Electronic Technologies
  Electronic Technologies focuses on information technologies and system architectures, which are used to create and manage on-line commercial transactions. Research includes:
  • Electronic commerce technologies and protocols (in particular wireless and multi-media).
  • The analysis and development of algorithms and theories (in particular security, data mining, web data warehouses, and distributed applications).
  • The definition of standards, architectures and software engineering methodologies for developing electronic commerce systems.
  • The experimental development of innovative applications (virtual environments, e-learning, personalization, electronic negotiations, business reporting, legislative compliance, and health care).

Other Programs Offered Within the Same Discipline or in a Related Area
• Master of Science Electronic Business Technologies (MSc)
• Doctorate in Philosophy Electronic Business (PhD)

Fees and Funding
• Program fees:
  The estimated amount for university fees (https://www.uottawa.ca/university-fees) associated with this program are available under the section Finance your studies (http://www.uottawa.ca/graduate-studies/programs-admission/finance-studies).
  International students enrolled in a French-language program of study may be eligible for a differential tuition fee exemption (https://www.uottawa.ca/university-fees/differential-tuition-fee-exemption).
• To learn about possibilities for financing your graduate studies, consult the Awards and financial support (https://www.uottawa.ca/graduate-studies/students/awards) section.

Notes
• Programs are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies.
• In accordance with the University of Ottawa regulation, students have the right to complete their assignments, examinations, research papers, and theses in French or in English.

Admission Requirements
For the most accurate and up to date information on application deadlines, language tests and other admission requirements, please visit the specific requirements (https://www.uottawa.ca/graduate-studies/programs-admission/apply/specific-requirements) webpage.
To be eligible, candidates must:

- Hold a bachelor’s degree with honours in a discipline relevant to the stream chosen, either e-business or e-technologies, with a minimum average of B+ (75%).
- Note: International candidates must check the admission equivalencies (https://www.uottawa.ca/graduate-studies/international/study-uottawa/admission-equivalencies) for the diploma they received in their country of origin.
- For the e-business stream, disciplines such as business administration, economics, computer science, electrical engineering, and business information are particularly relevant.
- For the e-technologies stream, disciplines such as computer science, computer engineering, software engineering, electrical engineering, and business information are particularly relevant and, for this stream, the degree program must have included courses in data structures, file management, operating systems, database management systems, and systems programming.

Language Requirements

Applicants must be able to understand and fluently speak the language of instruction (English) in the program to which they are applying. Proof of linguistic proficiency may be required.

Applicants whose first language is neither French nor English must provide proof of proficiency in the language of instruction (English) in the program to which they are applying. Proof of recent prolonged residence and exercise of a profession in an English speaking country (normally at least four years over the last six years).

Language tests recognized by the University of Ottawa:

- TOEFL minimum score of 600 (paper-based) with a minimum score of 5 on the written and 50 on the spoken or a minimum score of 100 (internet-based);
- IELTS minimum score of 7 for 3 of the 4 tests (Reading, Listening, Writing, Speaking) and a minimum score of 6 in the fourth test;
- CANTEST minimum score of 14 with an individual minimum score of 4.0 and a minimum score of 4.5 on the oral component;
- An equivalent language test (http://www.uottawa.ca/graduate-studies/programs-admission/apply/required-documents).

Notes:

- Candidates are responsible for any fees associated with the language tests.
- Test scores cannot be more than two-years-old as of September 1 of the year of potential entry into the program.

Notes

- The admission requirements listed above are minimum requirements and do not guarantee admission to the program.
- Admissions are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies.

Applying to the Co-op Option

In order to apply to the co-op option, you must first be admitted to a program that offers co-op.

Your application must be submitted by the end of the first month of enrollment in your primary program, i.e., by the end of September.

Admission to the co-op option occurs on a competitive basis and is managed by the Co-op Office (https://coop.uottawa.ca/en). Enquiries should be directed to that office.

To be admitted to the co-op option, you must:

- Be enrolled as a full-time student in the master’s in Electronic Business Technologies.
- Have and maintain a minimum CGPA of 7.0 (B+ or 75%) in courses taken at the University of Ottawa.
- Begin the program in the Fall term.
- Be a Canadian citizen, a permanent resident or an international student (authorization or diplomat)
- Pay the required co-op fees.

Program Requirements

Master’s with Research Project

- Electronic Business Stream

Requirements for this program have been modified. Please consult the 2018-2019 calendars (http://catalogue.uottawa.ca/en/archives) for the previous requirements.

Students must meet the following requirements:

Compulsory Courses:

<table>
<thead>

Notes:

1. Under special circumstances, students may be allowed to substitute CMN 5115 for ISI 5310 with the approval of the EBT Director and the professor for CMN 5115.
2. A maximum of 6 course units may be taken from Engineering (GNG) courses at the 5000 level.
Master’s with Research Project  
- Electronic Technologies Stream

Requirements for this program have been modified. Please consult the 2018-2019 calendars (http://catalogue.uottawa.ca/en/archives) for the previous requirements.

Students must meet the following requirements:

**Compulsory Courses:**
- ADM 6277  E-Business Energy Management  1.5 Units
- ADM 6287  Business Intelligence Technologies and Big Data Analytics for EBT  1.5 Units
- EBC 7101  Research Workshop in Electronic Business Technologies  1.5 Units
- ISI 5310  Ethics, Values and Information Dilemmas  3 Units

7.5 course units from:
- EBC 6220  Data Mining for Business Applications  1.5 Units
- EBC 6260  Integrated Networks for the Enterprise  1.5 Units
- EBC 6279  Information Literacy  3 Units
- EBC 6320  Knowledge in Organizations  3 Units
- EBC 6540  Knowledge Management  3 Units
- EBC 6690  Knowledge in Organizations  3 Units
- EBC 6710  Knowledge Management and Change  3 Units
- EBC 6970  Knowledge Management  3 Units
- EBC 7080  Knowledge in Organizations  3 Units

9 optional course units from the list of optional courses  9 Units

**Research Project:**
- EBC 6997  Research Project  6 Units

**Note(s)**
1. Under special circumstances with the approval of the EBT Director and the professor for the course, students may be allowed to substitute CMN 5115 for ISI 5310.
2. A maximum of 6 course units may be taken from Engineering (GNG) courses at the 5000 level.

**List of Optional Courses**

The following courses can be taken as optional courses in any of the programs above:

- ADM 6267  Enterprise Resource Planning Systems Management  1.5 Units
- ADM 6279  Socio-Technical Change  1.5 Units
- ADM 6286  International E-Business Strategies for EBT  1.5 Units
- ADM 6420  Electronic Marketing  1.5 Units
- ADM 6260  Project Management I  1.5 Units
- ADM 6261  Project Management II  1.5 Units
- CMN 5110  Social History of Communication Technologies  3 Units
- CMN 5140  Communication, Globalization and Change  3 Units
- CMN 5150  Knowledge Management  3 Units
- CSI 5105  Network Security and Cryptography  3 Units
- CSI 5111  Software Quality Engineering  3 Units
- CSI 5112  Software Engineering  3 Units
- CSI 5115  Database Analysis and Design  3 Units
- CSI 5118  Automated Verification and Validation of Software  3 Units
- CSI 5122  Software Usability  3 Units
- CSI 5180  Topics in Artificial Intelligence  3 Units
- CSI 5386  Natural Language Processing  3 Units
- CSI 5387  Data Mining and Concept Learning  3 Units
- EBC 5125  Data Science Applications  3 Units
- EBC 5175  Mobile Commerce Technologies  3 Units
- EBC 5380  Systems and Architectures for Electronic Commerce  3 Units
- EBC 5389  Electronic Commerce Technologies  3 Units
- EBC 5990  Directed Readings  1.5 Units
- EBC 5991  Directed Readings  1.5 Units
- EBC 6130  Web Services  1.5 Units
- EBC 6170  Cyber Security Systems and Strategies  1.5 Units
- EBC 6180  Strategic Knowledge Management  1.5 Units
- EBC 6210  Electronic Commerce Architecture  1.5 Units
- EBC 6220  Data Mining for Business Applications  1.5 Units
- EBC 6230  Business Process Management and Performance Measurement  3 Units
- EBC 6240  Mobile Commerce  1.5 Units
- EBC 6250  Document Engineering for E-Business  1.5 Units
- EBC 6260  Integrated Networks for the Enterprise  1.5 Units
- EBC 6300  Topics in Electronic Business  3 Units
- EBC 6301  Topics in Electronic Business  1.5 Units
- EBC 6310  Topics in Electronic Business  1.5 Units
- ELG 5121  Multimedia Communications  3 Units
- ELG 5373  Data Encryption  3 Units
- EMP 5116  Issues in Management and Operation of Communication Networks  3 Units
- GNG 5120  Technology entrepreneurship for Engineers and Computer Scientists  3 Units
- GNG 5121  Planning of Experiments in Engineering Design  3 Units
- GNG 5122  Operational Excellence and Lean Six Sigma  3 Units
- GNG 5123  Enterprise Architecture  3 Units
- GNG 5124  Internet Technologies and Mobile Commerce  3 Units
- GNG 5130  Business Communication and Influence  3 Units
- GNG 5131  Sales and Influence for Engineers  3 Units
- GNG 5140  Engineering Design  3 Units
- GNG 5141  Creativity and Innovation  3 Units
- GNG 5231  Sales Engineer Internship Project  6 Units
- GNG 5299  Industry Internship Project  6 Units
- GNG 5300  Topics in Engineering  3 Units
- GNG 5310  Topics in Industry Practice  3 Units
- ISI 6312  Global Information and Communications Policy  3 Units
- ISI 6322  Digital Preservation  3 Units
- ISI 6332  Metadata and Taxonomies  3 Units
- ISI 6342  Web Architecture and Technologies  3 Units
- ISI 6343  Digital Asset Management Technologies  3 Units
- ISI 6351  Social Media  3 Units
- ISI 6372  Information Literacy  3 Units
- ISI 6381  Knowledge in Organizations  3 Units

Co-op students must enroll full-time and complete two work terms: CGI 6001 and CGI 6002.

Each work term is graded P/F (Pass/Fail), based on the employer's report and on the written report completed by the student (the student report should be 30 pages long, including annexes). The report is evaluated by the professor in charge of the graduate co-op option in Electronic Business Technologies. The units awarded for co-op terms may not be used to obtain equivalences for other courses. In other words, the co-op units are additional to the minimum requirements of the degree.

To remain enrolled in the co-op option, students must:

- Maintain full-time status.
- Maintain a 7.0 grade point average.
- Obtain a satisfactory grade (P) for each co-op work term.

Minimum Requirements

Students who fail 4.5 units, or the same course twice, will be withdrawn from the program.

Research

Research Fields & Facilities

Located in the heart of Canada's capital, a few steps away from Parliament Hill, the University of Ottawa is among Canada's top 10 research universities.

uOttawa focuses research strengths and efforts in four Strategic Areas of Development in Research (SADRs):

- Canada and the World
- Health
- e-Society
- Molecular and Environmental Sciences

With cutting-edge research, our graduate students, researchers and educators strongly influence national and international priorities.

Research at the Faculty of Engineering

Areas of research:

- Chemical and Biological Engineering
- Civil Engineering
- Electrical Engineering and Computer Science
- Mechanical Engineering

For more information, refer to the list of faculty members and their research fields on Uniweb.

IMPORTANT: Candidates and students looking for professors to supervise their thesis or research project can also consult the website of the faculty or department (https://www.uottawa.ca/graduate-studies/students/academic-unit-contact-information) of their program of choice. Uniweb does not list all professors authorized to supervise research projects at the University of Ottawa.

Courses

EBC 5100 Introductory Seminar (1.5 unit)
Course Component: Lecture

EBC 5125 Data Science Applications (3 units)
Analysis and design of various data cleaning, wrangling, blending, and visualization, statistical inference, classification, clustering, regression, and content analysis methods. Use of machine learning algorithms to extract meaningful information from data to make decisions. Formulating analytics problems for business and developing, evaluating, and maintaining machine learning models. Analyzing, generating, and communicating insights on the models. Hands-on experience with an integrated set of current data analytics, data mining, and machine learning tools.

Course Component: Lecture
Exclusion: CSI 5155, CSI 5387, GNG 5125.

EBC 5175 Mobile Commerce Technologies (3 units)

Course Component: Lecture
Exclusion: CSI 5175.

EBC 5380 Systems and Architectures for Electronic Commerce (3 units)

Course Component: Lecture
Exclusion: CSI 5380.

EBC 5389 Electronic Commerce Technologies (3 units)

Course Component: Lecture
Exclusion: CSI 5389.

EBC 5500 Séminaire d'introduction (1.5 crédit)
Volet : Cours magistral

EBC 5501 Fondements de gestion pour les affaires électroniques (3 crédits)

Volet : Cours magistral
Permission du Département est requise.
EBC 5502 Fondements des technologies de l'information pour les affaires électroniques (3 crédits)
Volet : Cours magistral
Permission du Département est requise.

EBC 5503 Fondements des statistiques pour les affaires électroniques (3 crédits)
Volet : Cours magistral
Permission du Département est requise.

EBC 5990 Étude dirigée / Directed Readings (1.5 crédit / 1.5 unit)
Étude indépendante, sous la direction d'un professeur membre du programme. Le sujet et les exigences doivent être approuvés par le comité du programme. / Independent study under the supervision of a faculty member in the program. The topic and requirements must be approved by the program committee.
Volet / Course Component: Recherche / Research
Préalable : MPC d’au moins 7. / Prerequisite: CGPA of at least 7.

EBC 6130 Web Services (1.5 unit)
Web services business models and strategies. Enterprise Application Integration and Service Oriented Architectures. Web services technology standards. Consumer and enterprise adoption of web service technologies and platforms such as Mashups and Cloud Computing.
Course Component: Lecture

EBC 6170 Cyber Security Systems and Strategies (1.5 unit)
Course Component: Lecture

EBC 6180 Strategic Knowledge Management (1.5 unit)
Leveraging a firm's intellectual capital to enhance organizational performance. Business analysis frameworks, strategy roadmaps and enterprise architectures relevant to the planning and execution of knowledge management initiatives in organizations. Using the web to maximize knowledge acquisition and sharing among employees.
Course Component: Lecture

EBC 6210 Electronic Commerce Architecture (1.5 unit)
Course Component: Lecture

EBC 6220 Data Mining for Business Applications (1.5 unit)
Introduction to business data collection, data pre-processing, data warehouses, data marts, and online analytical processing. Data mining tasks including classification, clustering and association rules. Data mining model building, tools and techniques including decision trees, neural networks, and regression analysis. Application of these techniques in business including CRM, target marketing, credit scoring, churn, survival analysis, and fraud detection.
Course Component: Lecture

EBC 6230 Business Process Management and Performance Measurement (3 units)
Hands on introduction to Business Process Management Technologies. Review of the latest concepts for using technology to improve performance of business processes. Analysis of advances in Internet-enabled B2B and enterprise business models with emphasis on service-oriented and event-driven architecture. Introduction to current performance measurement tools and the role of data science in business process management. Example applications such as supply chain management, order processing, and health care process management will be studied.
Course Component: Laboratory, Lecture

EBC 6240 Mobile Commerce (1.5 unit)
Course Component: Lecture

EBC 6250 Document Engineering for E-Business (1.5 unit)
Course Component: Lecture

EBC 6260 Integrated Networks for the Enterprise (1.5 unit)
Course Component: Lecture

EBC 6265 Data Science for Business Applications (3 units)
Recent and advanced topics in the field of Data Science and its related areas. Topics vary from year to year.
Course Component: Lecture

EBC 6266 Integrated Networks for the Enterprise (1.5 unit)
Course Component: Lecture

EBC 6300 Topics in Electronic Business (3 units)
Recent and advanced topics in the field of Electronic Business and its related areas. Topics vary from year to year.
Course Component: Lecture

EBC 6301 Topics in Electronic Business (1.5 unit)
Recent and advanced topics in the field of Electronic Business and its related areas. Topics vary from year to year.
Course Component: Lecture

EBC 6302 Topics in Electronic Business (1.5 unit)
Recent and advanced topics in the field of Electronic Business and its related areas. Topics vary from year to year.
Course Component: Lecture

EBC 6700 Thèmes choisis en affaires électroniques (3 crédits)
Sujets actuels et avancés en affaires électroniques et disciplines connexes. Les sujets varient d'une année à l'autre.
Volet : Cours magistral

EBC 6701 Thèmes choisis en affaires électroniques (1.5 crédit)
Sujets actuels et avancés en affaires électroniques et disciplines connexes. Les sujets varient d'une année à l'autre.
Volet : Cours magistral
EBC 6900 Stage international / International Work Term (3 crédits / 3 units)
Exérience pratique dans un milieu de travail international. Noté S (satisfaisant) / NS (non satisfaisant) selon les résultats de rapport écrit et l'évaluation de l'employeur. Les cours EBC 6900, CSI 5903, CSI 5904 ne peuvent être combinés pour l'obtention de crédits. / Practical international experience. Graded S (Satisfactory) / NS (Not satisfactory), based on the written report as well as on the evaluations of the employer. Courses EBC 6900, CSI 5903, CSI 5904 cannot be combined for units.
Volet / Course Component: Cours magistral / Lecture
Exclusion : CSI 5903, CSI 5904. / Exclusion: CSI 5903, CSI 5904.

EBC 6950 Lectures dirigées / Directed Readings (1.5 crédit / 1.5 unit)

EBC 6997 Projet de recherche / Research project (6 crédits / 6 units)
Le sujet de recherche, ainsi que le professeur qui va le diriger, doivent être approuvés par la direction du programme avant l'inscription à la troisième session. Le sujet peut être de nature théorique (par exemple, une évaluation de la documentation ou une étude de la littérature scientifique) ou appliquée (par exemple, des études de cas). Un mémoire, d'une cinquantaine de pages, doit être rédigé et approuvé par le professeur qui le dirige ainsi qu'un autre professeur. / The research topic and the professor who will direct it must be approved by the program director prior to registration in the third session. The topic can be theoretical (for instance, based on a documentation assessment or a review of the scientific literature) or applied (based on case studies). A research paper, about 50 pages long, must be written and approved by the project director and another professor.
Volet / Course Component: Recherche / Research

EBC 7100 Research Methods in Electronic Business Technologies (3 units)
Course Component: Lecture

EBC 7101 Research Workshop in Electronic Business Technologies (1.5 unit)
Writing a Research Project proposal including problem formulation and work plan. Essentials of graduate report writing, information management, literature search techniques and reference management. Research ethics including academic integrity and avoiding academic fraud.
Course Component: Lecture

EBC 7102 Interdisciplinary Research Methods in E-Business (1.5 unit)
Writing a Thesis Proposal. Research design. Introduction to positivist and interpretive approaches, behavioural and design science research, qualitative and quantitative research methods, and sampling strategies and techniques.
Course Component: Lecture
Prerequisite: EBC 7101

EBC 9997 Projet de thèse / Thesis proposal

EBC 9998 Examen général de doctorat / Comprehensive Exam
Volet / Course Component: Recherche / Research
