MASTER OF ENGINEERING
ENVIRONMENTAL
ENGINEERING

Summary
- Degree offered: Master of Engineering (MEng)
- Registration status options: Full-time; Part-time
- Language of instruction: English

Most of the courses in this program are offered in English. Research activities can be conducted either in English, French, or both, depending on the language used by the professor and the members of his or her research group.

- Program options (expected duration of the program):
  - within two years of full-time study
- Academic units: Faculty of Engineering (http://engineering.uottawa.ca), Ottawa-Carleton Institute of Environmental Engineering (http://www.ociene.ca).

Program Description
Ottawa-Carleton Joint Program

Established in 2000, the Ottawa-Carleton Institute of Environmental Engineering (OCIENE) combines the teaching and research strengths of the Department of Civil Engineering and the Department of Chemical Engineering at the University of Ottawa with that of the Departments of Civil and Environmental Engineering at Carleton University.

The Institute offers graduate programs leading to the degrees of Master of Applied Science in Environmental Engineering (MASc), Master of Applied Science in Environmental Engineering (MASc) Specialization in Environmental Sustainability, a Master of Engineering (MEng) and Doctor of Philosophy (PhD) in Environmental Engineering.

Main Areas of Research
- Biofilms and biofilm technologies for water and wastewater treatment
- Drinking water: membrane treatment and climate change adaptation technologies
- Ecological engineering and agricultural waste management
- Mining impacted water management
- Northern, rural and First Nation water and wastewater
- Sustainable municipal waste management, groundwater, and remediation technologies
- Water resources and management

Note: Further information is posted on the departmental website.

Learning Outcomes
- Autonomy in conducting research
- Autonomy in preparing scholarly publications

Other Programs Offered Within the Same Discipline or in a Related Area
- Master of Applied Science Environmental Engineering (MASc)
- Master of Applied Science Civil Engineering (MASc)
- Master of Applied Science Environmental Engineering Specialization Environmental Sustainability (MASc)
- Master of Applied Science Civil Engineering Specialization in Science, Society and Policy (MASc)
- Master of Engineering Civil Engineering (MEng)
- Doctorate in Philosophy Environmental Engineering (PhD)
- Doctorate in Philosophy Civil Engineering (PhD)

Fees and Funding
- Program fees:
  The estimated amount for university fees (https://www.uottawa.ca/university-fees) associated with this program are available under the section Finance your studies (http://www.uottawa.ca/graduate-studies/programs-admission/finance-studies).

  International students enrolled in a French-language program of study may be eligible for a differential tuition fee exemption (https://www.uottawa.ca/university-fees/differential-tuition-fee-exemption).

  To learn about possibilities for financing your graduate studies, consult the Awards and financial support (https://www.uottawa.ca/graduate-studies/students/awards) section.

Notes
- Programs are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies and by the general regulations of the Ottawa-Carleton Institute of Environmental Engineering (OCIENE).
- In accordance with the University of Ottawa regulation, students have the right to complete their assignments, examinations, research papers, and theses in French or in English.

Program Contact Information
Graduate Studies Office, Faculty of Engineering (https://engineering.uottawa.ca/graduate-studies-office)
STE 1024
800 King Edward Ave.
Ottawa ON Canada
K1N 6N5
Tel.: 613-562-5347
Fax.: 613-562-5129
Email: engineering.grad@uottawa.ca

Twitter | Faculty of Engineering (https://twitter.com/uOttawaGenie?lang=en)
Applicants whose first language is neither French nor English must provide proof of proficiency in the language of instruction.

Note: Candidates are responsible for any fees associated with the language tests.

Notes
- The admission requirements listed above are minimum requirements and do not guarantee admission to the program.
- Admissions are governed by the general regulations (http://www.uottawa.ca/graduate-studies/students/general-regulations) in effect for graduate studies and by the general regulations of the Ottawa-Carleton Institute of Environmental Engineering (OCIEE).

Program Requirements

Master’s with Coursework and Project

Requirements for this program have been modified. Please consult the 2018-2019 calendars (http://catalogue.uottawa.ca/en/archives) for the previous requirements.

Candidates transferring from another university must take at least half their units at the Institute.

The Department may require students to take additional courses, depending on their backgrounds.

Students must meet the following requirements:

Compulsory Courses:

24 optional course units in environmental engineering (EVG) at the graduate level 1

Seminar

EVG 5800 Seminar for Master’s Candidates in Environmental Engineering 1 Unit

Project:

EVG 6001 Environmental Engineering Project 6 Units

Note(s)

1 A maximum of 6 course units may be taken from Engineering (GNG) courses at the 5000 level. A minimum of 3 course units must be selected from at least three of the following areas of study:
- Air pollution
- Water resources management, groundwater management and contaminant transport
- Water and waste water treatment
- Management of solid, hazardous, and radioactive waste and pollution prevention
- Environmental impact assessment

Master’s with Coursework

Requirements for this program have been modified. Please consult the 2018-2019 calendars (http://catalogue.uottawa.ca/en/archives) for the previous requirements.

Candidates transferring from another university must take at least half their units at the Institute.

The Department may require students to take additional courses, depending on their backgrounds.
Students must meet the following requirements:

**Compulsory Courses:**
30 optional course units in environmental engineering (EVG) at the graduate level

Note(s)
- A maximum of 9 course units may be taken from Engineering (GNG) courses at the 5000 level. A minimum of 3 course units must be selected from at least three of the following areas of study:
  - Air pollution
  - Water resources management, groundwater management and contaminant transport
  - Water and waste water treatment
  - Management of solid, hazardous, and radioactive waste and pollution prevention
  - Environmental impact assessment

**List of Optional Courses**
Course selection is subject to the approval of the advisor or the advisory committee. Students may choose courses offered at either university from among those listed below.

The courses listed below are grouped by area of study. Students must complete at least one course in three of the five areas. The director will decide when a course offered under a special topics or directed studies heading can be considered to meet the requirements of a given area. Course descriptions may be found in the departmental sections of the calendars concerned.

**Air Pollution**
- CVG 7161 Traffic Related Air Pollution 3 Units
- CVG 7162 Ambient Air Quality and Pollution Modelling 3 Units
- CHG 8132 Adsorption Separation Processes 3 Units
- EVG 5101 Air Pollution Control 3 Units
- EVG 7104 Indoor Air Quality 3 Units

**Water Resources Management, Groundwater Management, and Contaminant Transport**
- CVG 5124 Coastal Engineering 3 Units
- CVG 5125 Statistical Methods Hydrology 3 Units
- CVG 5154 Random Vibration 3 Units
- CVG 5160 Sediment Transport 3 Units
- CVG 5162 River Hydraulics 3 Units
- CVG 7108 Seepage and Water Flow Through Soils 3 Units
- CVG 7163 Case Studies in Hydrogeology 3 Units
- GEO 5143 Environmental Isotopes and Groundwater Geochemistry 3 Units
- GEO 5147 Aqueous Inorganic Geochemistry and Modelling 3 Units
- EVG 7301 Contaminant Hydrology 3 Units
- EVG 7303 Multiphase Flow in Soils 3 Units

**Management of Solid, Hazardous, and Radioactive Waste and Pollution Prevention**
- CVG 5133 Solid Waste Disposal 3 Units
- CVG 5179 Anaerobic Digestion 3 Units
- CVG 5331 Sludge Utilization and Disposal 3 Units
- EVG 5203 Hazardous and Radioactive Waste Management 3 Units
- EVG 7201 Geo-Environmental Engineering 3 Units
- EVG 7202 Contaminant Fate Mechanisms 3 Units

**Water and Wastewater Treatment**
- CVG 5130 Wastewater Treatment Process Design 3 Units
- CVG 5132 Unit Operations of Water Treatment 3 Units
- CVG 5134 Chemistry for Environmental Engineering 3 Units
- CVG 5137 Water and Wastewater Treatment Process Analysis 3 Units
- CVG 5138 Advanced Water Treatment 3 Units
- CVG 7160 Biofilm Processes in Waste-Water Treatment 3 Units
- CVG 5180 Biological Nutrient Removal 3 Units
- CVG 5232 Unit Operations of Water Treatment Lab 1.5 Units
- CVG 5238 Advanced Water Treatment Process Lab 1.5 Units
- CHG 8181 Advanced Biochemical Engineering 3 Units
- CHG 8192 Membranes in Clean Processes 3 Units
- CHG 8198 Membrane Gas Separation Processes 3 Units

**Environmental Impact Assessment**
- EVG 7401 Environmental Impact Assessment of Major Projects 3 Units
- CVG 5139 Environmental Assessment of Civil Engineering Projects 3 Units

**Other Courses**
- EVG 6108 Directed Studies I 3 Units
- EVG 6109 Directed Studies II 3 Units
- EVG 6300 Special Topics in Environmental Engineering I 3 Units
- EVG 6301 Special Topics in Environmental Engineering II 3 Units
- EVG 6302 Special Topics in Environmental Engineering III 3 Units
- EVG 7402 Finite Elements in Field Problems 3 Units
- GNG 5121 Planning of Experiments in Engineering Design 3 Units
- GNG 5122 Operational Excellence and Lean Six Sigma 3 Units
- GNG 5123 Enterprise Architecture 3 Units
- GNG 5124 Internet Technologies and Mobile Commerce 3 Units
- GNG 5125 Data Science Applications 3 Units
- GNG 5130 Business Communication and Influence 3 Units
- GNG 5131 Sales and Influence for Engineers 3 Units
- GNG 5140 Engineering Design 3 Units
- GNG 5141 Creativity and Innovation 3 Units
- GNG 5231 Sales Engineer Internship Project 6 Units
- GNG 5300 Topics in Engineering 3 Units
- GNG 5310 Topics in Industry Practice 3 Units
- GNG 5299 Industry Internship Project 6 Units

**Dynamic Processes**
- CHG 8194 Membrane Liquid Separation Processes and Materials 3 Units
- CHG 8195 Advanced Numerical Methods in Chemical and Biological Engineering 3 Units

**Transport Phenomena**
- CHG 8196 Interfacial Phenomena in Engineering 3 Units
- CVG 7140 Statistics, Probabilities and Decision-Making 3 Units

This is a copy of the 2019-2020 catalog.

Minimum Requirements

The passing grade in all courses is B.

Fast-track from Master’s to PhD

Students enrolled in the master’s program in environmental engineering at the University of Ottawa may be eligible to fast-track directly into the doctoral program without writing a master’s thesis. For additional information, please contact the graduate studies office of the Faculty of Engineering.

Research

Research Fields & Facilities

Located in the heart of Canada’s capital, a few steps away from Parliament Hill, the University of Ottawa is among Canada’s top 10 research universities.

uOttawa focuses research strengths and efforts in four Strategic Areas of Development in Research (SADRs):

- Canada and the World
- Health
- e-Society
- Molecular and Environmental Sciences

With cutting-edge research, our graduate students, researchers and educators strongly influence national and international priorities.

Research at the Faculty of Engineering

Areas of research:

- Environmental Engineering
- Chemical and Biological Engineering
- Civil Engineering
- Electrical Engineering and Computer Science
- Mechanical Engineering

For more information, refer to the list of faculty members and their research fields on Uniweb (https://uniweb.uottawa.ca/#!arts/themes).

Courses

Course selection is subject to the approval of the advisor or the advisory committee. Students may choose courses offered at either university from among those listed below.

The courses listed below are grouped by area of study. Students must complete at least one course in three of the five areas. The director will decide when a course offered under a special topics or directed studies heading can be considered to meet the requirements of a given area. Course descriptions may be found in the departmental sections of the calendars concerned. Only a selection of courses given in a particular academic year.
