

B.A. SPÉCIALISÉ BIDISCIPLINAIRE EN COMMUNICATION ET LETTRES FRANÇAISES

Communication

Ours is the communication and information age. Analyzing how information is gathered, produced and distributed today helps us understand the communication processes that drive a variety of settings: social, cultural, political, organizational, economic and legal. In this program, you will develop critical and analytical skills in order to evaluate the nature and impact of technology and media on society, organizations and interpersonal relations. You will have the opportunity to be exposed to the latest developments in the field of communication (communication strategies, digital media, evolution of the media industry, advertising, crisis communications, negotiations, etc.). The Department of Communication offers courses in two main areas: media studies and organizational communication (internal and external communication in public and private organizations, health communication, organizational change, etc.). Combining theory and practice, our programs develop your critical and analytical skills and prepare you either for a professional career or for advanced studies.

Lettres françaises

Our programs in *lettres françaises* offer a complete, diverse and thorough education involving the following:

- Studying literature from France, Quebec, French-speaking Ontario and other communities of the francophonie.**

Using a number of critical and theoretical approaches, you will expand your understanding of cultural diversity, sharpen your critical thinking skills and enrich your oral and written expression.

- Mastering the French language and, in particular, French composition.**
Specialized courses give you the tools to improve your syntax, enrich your vocabulary and polish your style. Other courses give you theoretical knowledge as well as practical experience with writing tools and writing and publishing methods used in many work settings, including educational institutions, businesses, the public service, public relations agencies and the media. As sought after as it is rare, a mastery of French is a real asset when looking for a job.

- Developing your flair for creative writing**

Workshops led by writers-in-residence and professor writers help you improve your own writing and enhance your creativity.

What's more, the University of Ottawa's *Département de français* is one of the very few university departments in Canada to offer both a master's and a PhD in creative writing.

This program is offered in French only.
