Program Requirements

Students admitted to the integrated B.Sc spécialisé en sciences/B.Éd (cycles intermédiaire/supérieur) program must follow two faculties’ regulations: when they are registered for Faculty of Science courses, they must follow that faculty’s regulations, while when they are registered for Faculty of Education courses, the Faculty of Education’s regulations take precedence. Students must pass a language proficiency test to register for Faculty of Education Formation à l’enseignement courses, although you can register for optional PED courses. The test is administered during the second term of first year. If you fail it, you can write a supplemental test in the second term of second year. If you fail the test, you are only entitled to write one supplemental test.

Please note that admission to the B.Sc spécialisé Sciences et Baccalauréat en éducation - Cycles intermédiaire/supérieur is suspended until further notice.

Please note that admission to the B.Sc spécialisé Sciences et Baccalauréat en éducation - Cycles intermédiaire/supérieur is suspended until further notice.

B.Sc spécialisé en sciences

120 Units

Composed of a major in biology, chemistry, mathematics or physics, and one of the following three options:

Option 1:
A major or minor in science (biology, chemistry, mathematics, physics) and 12 course units in humanities

Option 2:
A minor in computer science and 12 course units in humanities

Option 3:
A major or minor in the humanities and 0-12 elective course units

6 course units from:

12 course units from the list of teaching subjects

12 Units

Total: 156 Units

Note(s)

1. Anyone who does not achieve a passing grade in the language proficiency test is automatically registered in PED 1599 by the Faculty. Units for this course are in addition to the regular program requirements.

2. Students who choose two science teaching subjects must take PED 2728.

3. For more information, see the Faculty of Education calendar (http://www.uottawa.ca/academic/info regist/1415/annuaires/programmes/903.html) or speak to a Faculty of Science academic advisor.
