UNDERGRADUATE MEDICAL EDUCATION (MD PROGRAM) AND DOCTORATE IN PHILOSOPHY CELLULAR AND MOLECULAR MEDICINE

Undergraduate Medical Education (MD Program)

The program leading to the Doctor of Medicine degree includes 147 weeks of instruction (72 weeks of which are devoted to clinical work) scheduled over four calendar years.

Preclerkship is devoted to the teaching and learning of biomedical sciences, whereas Clerkship is devoted to clinical work. During medical studies, students should demonstrate the intelligence, the integrity, and the personal and emotional characteristics deemed necessary for competent physicians. Their behaviour must be consistent with an acceptable code of professional ethics, such as stated in the Faculty’s Standards of Ethical and Professional Behaviour.

This program is offered in English and in French.

Doctorate in Philosophy Cellular and Molecular Medicine

The programs prepare candidates for a variety of careers in teaching and research both within and outside of academia. During training, the student will develop a critical approach to published work and to his own work. Graduates acquire an excellent knowledge of their chosen field and a general understanding of the areas related to their own particular research project. They must demonstrate research skills and credibility as professionals in their area of research.

The Department is a participating unit in the collaborative programs in Bioinformatics (at the master’s level), in Human and Molecular Genetics (at the master’s and doctoral levels), and in Pathology and Experimental Medicine (at the master’s and doctoral levels).

MED 4103 Eportfolio on Core Competencies (Part 3)
MED 4104 Eportfolio on Core Competencies (Part 4)

**Doctorate in Philosophy Cellular and Molecular Medicine**

Students must meet the following requirements:

**Compulsory Courses:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MED 8166</td>
<td>Professionalism and Professional Skills</td>
</tr>
</tbody>
</table>

6 optional course units in cellular and molecular medicine (CMM) at the graduate level

**Seminar:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMM 8325S</td>
<td>Seminars II</td>
</tr>
</tbody>
</table>

3 Units

**Comprehensive Examination:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CMM 9998</td>
<td>Comprehensive Examination (PhD)</td>
</tr>
</tbody>
</table>

**Thesis:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>THD 9999</td>
<td>Doctoral Thesis</td>
</tr>
</tbody>
</table>

Note(s)

1. The Department may require students to take additional courses, depending on their backgrounds.

2. Students are allowed to take 3 optional course units in another discipline with approval of the Department.

3. The seminar course involves the presentation of a seminar and attendance at the seminars approved by the Department.

4. Successful completion of a comprehensive examination in the form of a written research proposal followed by an oral examination.

5. Presentation and defense of a thesis based on original research carried out under the direct supervision of a research faculty member in the Department.

6. Students are responsible for ensuring they have met all of the thesis requirements (http://www.uottawa.ca/graduate-studies/students/theses/).

**Minimum Requirements (Doctorate)**

The passing grade in all courses is C+.

Students who fail two courses (equivalent to 6 units), the thesis proposal, or the comprehensive exam or whose research progress is deemed unsatisfactory are required to withdraw.
