HONOURS BACHELOR OF COMMERCE (OPTION IN FINANCE) AND MASTER OF SCIENCE IN MANAGEMENT

Overview

Honours Bachelor of Commerce (Option in Finance)

This program is designed to equip students with the necessary financial tools for a career in either the corporate sector or investment. The theory and practice of financial management are combined with a comprehensive presentation of the financial instruments issued by corporations and modern valuation techniques. Students can extend their financial knowledge by focusing on derivative markets, and specialized topics in corporate and international finance.

This program is offered in English and in French.

Master of Science Management (Research Project)

This exciting integrated accelerated bachelor's/master's program allows students to earn two degrees in five years. Designed for students with a strong academic record and a keen interest in conducting business research, this integrated program enables select undergraduate students to get a jump-start in their project-based master's program by completing two graduate courses during their last year of the undergraduate degree, and starting their research project in a familiar environment over the summer bridge term between the bachelor's and master's programs. This integrated program focuses on empowering students to develop their business acumen and research skills in a specialized field of study, and to contribute towards smarter decisions about policy and practice in creating a better Canada.

This program is offered in English only.

For further information on this Dual Fast-track Degree, please communicate with the Student Services Centre via undergraduate@telfer.uottawa.ca (http://catalogue.uottawa.ca/en/undergrad/honours-bachelor-commerce-option-finance/undergraduate@telfer.uottawa.ca).

Program Requirements

Honours Bachelor of Commerce (Option in Finance)

Co-operative education is available with this program.

The French immersion stream is available with the Honours Bachelor of Commerce. The MSc in Management program is offered in English only.

Optional courses

9 optional course units in administration (ADM) | 9 Units

Electives

15 elective course units from another faculty | 15 Units
15 elective course units | 15 Units

Total: 102 Units

Note(s)

1 A maximum of 6 course units at the 1000 level can count towards this requirement.
Master of Science in Management (Research Project)

Compulsory Courses

- MGT 5200  Foundations for Quantitative Methods  3 Units
- MGT 5300  Foundations of Management  3 Units

Concentration Courses

- 18 course units from the chosen concentration  18 Units

Seminar

- MGT 6191  Management Research Seminar Series  1

Research Project

- MGT 6997  M.Sc. Research Project  6 Units

Total:  30 Units

MSc list of concentrations

Business Analytics

- MGT 5101  Multivariate Research Methods  3 Units
- MGT 5301  Predictive Analytics  3 Units
- MGT 5302  Decision Analytics  3 Units
- MGT 5303  Management analytics and case studies  3 Units
- 6 course units from:  6 Units
  - MGT 7108  Optimization and Modeling

Marketing & Behavioral Science

- MGT 5100  Research Design Methodologies and the Conduct of Research  3 Units
- MGT 5304  Generating Marketing Insights  3 Units
- MGT 5305  Behavioural insights and interventions  3 Units
- 3 course units from:  3 Units
  - MGT 5101  Multivariate Research Methods
  - MGT 5102  Qualitative Research Methods

Entrepreneurship

- MGT 5100  Research Design Methodologies and the Conduct of Research  3 Units
- MGT 6110  Entrepreneurial Process and Opportunity Recognition  3 Units
- 3 course units from:  3 Units
  - MGT 5101  Multivariate Research Methods
  - MGT 5102  Qualitative Research Methods

Finance

- MGT 6120  Investment and Portfolio Management  3 Units
- MGT 8107  Finance  3 Units
- 12 course units from:  12 Units
  - MGT 5101  Multivariate Research Methods
  - MGT 6102  Financial Risk Management and Derivative Securities
  - MGT 6111  Venture Capital and Private Equity
  - MGT 6121  Application of Empirical Methods in Finance
  - MGT 6122  Advanced Corporate Finance and Empirical Methods

Accounting

- MGT 5100  Research Design Methodologies and the Conduct of Research  3 Units
- MGT 5102  Qualitative Research Methods  3 Units
- MGT 6126  Introduction to Qualitative and Experimental Research in Accounting  3 Units
- MGT 6127  Sustainability Accounting and Control  3 Units
- MGT 6128  Introduction to Accounting Research: Special Topics and New Developments  3 Units
- MGT 8101  Financial Accounting and Reporting  3 Units

Organizational Behaviour and Human Resources

- MGT 5100  Research Design Methodologies and the Conduct of Research  3 Units
- MGT 6130  Evidence-Based HROB Interventions  3 Units
- MGT 6131  Current Trends in HROB  3 Units
- MGT 8113  Fundamentals of Human Resources Management  3 Units
- 3 course units from:  3 Units
  - MGT 5101  Multivariate Research Methods
  - MGT 5102  Qualitative Research Methods

Note(s)

1. Students must attend at least 4 seminars during their studies.
2. MGT 7108 can be replace by an elective course from another concentration or another faculty.
3. This requirement may be fulfilled by MGT 5101, MGT 5102 or a course in another concentration or another faculty.
Specific requirements for the master’s program

Research Project

The Research Project (RP) is a capstone program component that requires students to conduct applied research with a partnering organization or as part of a Telfer faculty member’s on-going research project. Students must show the ability to work independently (analysis and report writing) and apply knowledge gained in the MSc seminars to a well-defined practical problem. It is not required that the RP makes an original contribution to scholarly literature. Students are discouraged from collecting primary (original) data from human participants given the time taken to receive ethics approval and the short time frame given to complete the RP (3-4 months).

The RP can be theoretical, such as a literature review in which the student demonstrates how the existing academic literature can provide practical insight into a specific problem. It can also be empirical by using primary data (previously collected by a supervising faculty member) or secondary data (e.g., publicly accessible databases; results reported in published or unpublished research papers) to answer relatively simple research questions. Examples could be a replication of previously published research and a focused meta-analysis. Given the program’s focus on facilitating evidence-based practice, the RP’s central aim is giving students the opportunity to use their advanced research skills for informing practice within one organization or several organizations dealing with the same problem.

RP topics must be approved by the Telfer faculty member(s) responsible for coordinating RPs in the students’ concentration. The completed RPs will be evaluated (pass/fail) by the same faculty member(s).

Co-op Option

The co-op option is only available to students enrolled in the research project option. Co-op students must enroll full-time and complete two work terms:

- ADM 6001
- ADM 6002

Management Research Seminar Series

Students must enroll continuously in Management Research Seminar Series (MGT 6191) from the beginning of their program and must attend at least four seminars in the series if they are in the one-year or CO-OP project-based options, and at least six seminars in the series if they are in the two-year thesis-based option. The notation “CTN” (for continuing activity) will be entered for each term until successful completion of the seminar requirements. The program director will confirm attendance and active participation.

Duration of Program

The one-year with Research Project option can be completed in three terms or approximately 12 months. The maximum time allowed for completion of this option is two years.

The CO-OP with Research Project option can be completed in either five or six terms (approximately 20 or 24 months). Students preferring to complete this option in five terms are encouraged to take more than two courses during the first winter term. Also, completion within five terms requires that students get approval for their project’s topic and scope by the end of the second fall term. The maximum time allowed for completion of this option is four years.

The two-year with thesis option can be completed in six terms or approximately 24 months but can also be more quickly. The maximum time allowed for completion of this option is four years.
