**HONOURS BSC IN BIOLOGY (RESEARCH FOCUS)**

Recent discoveries and new technologies are revolutionizing the biological sciences, placing increasing emphasis on integrating knowledge across all levels of organization, from molecules to ecosystems. Our programs give students both the intellectual tools and the hands-on experience they need to pursue careers in fields as diverse as conservation and endangered species; land-use management; ecotoxicology; academic, industry or government research; or health care. Learning takes place through traditional classroom instruction, innovative laboratory projects with state-of-the-art technologies, field-based courses around the world, and a strong research program in which undergraduate students of all years are intensively mentored in a research lab.

The honours program in biology allows for in-depth study in one or more biological disciplines. Students can concentrate on a particular area by choosing one of three options: Cellular and Molecular Biology, Physiology, or Ecology, Evolution and Behaviour. This route includes a compulsory independent research project to equip students with advanced research, analysis and communication skills applicable to diverse careers. Students thinking of a career in research should consider the Research Focus, an immersive research experience in the third and fourth years.

This program is offered in English and in French.

**Program Requirements**

The French Immersion Stream is available with this program.

Requirements for this program have been modified. Please consult the 2019-2020 calendars (http://catalogue.uottawa.ca/en/archives/) for the previous requirements.

- 3 optional course units in English (ENG) at the 1000 or 2000 level
  - BIO 1130 Introduction to Organismal Biology: 3 Units
  - BIO 1140 Introduction to Cell Biology: 3 Units
  - CHM 1311 Principles of Chemistry: 3 Units
  - CHM 1321 Organic Chemistry I: 3 Units
  - GEO 1111 Introduction to Earth Systems: 3 Units
  - MAT 1330 Calculus for the Life Sciences I: 3 Units
  - MAT 1332 Calculus for the Life Sciences II: 3 Units
  - PHY 1321 Principles of Physics I: 3 Units
  - BCH 2333 Introduction to Biochemistry: 3 Units
  - BIO 2129 Ecology: 3 Units
  - BIO 2133 Genetics: 3 Units
  - BIO 2135 Animal Form and Function: 3 Units
  - BIO 2137 Introduction to Plant Science: 3 Units
  - CHM 2120 Organic Chemistry II: 3 Units
  - MAT 2379 Introduction to Biostatistics: 3 Units
  - BIO 3009 Research Practicum: 6 Units
  - BIO 4158 Applied Biostatistics: 3 Units
  - BIO 4920 Seminar I Evaluating Science: 1.5 Units
  - BIO 4921 Seminar II Developing and Communicating Science: 1.5 Units

- 9 optional course units in biology (BIO), biopharmaceutical science (BPS) or environmental science (EVS), BCH 3120, BCH 3125, BCH 3356, BCH 4122, BCH 4125, BCH 4188

- 15 optional course units in biology (BIO), biopharmaceutical science (BPS) or environmental science (EVS) at the 3000 or 4000 level, BCH 3120, BCH 3125, BCH 3356, BCH 4122, BCH 4125, BCH 4188

- 9 elective course units offered by the Faculty of Arts, the Faculty of Education, the Faculty of Law, the Faculty of Social Sciences or the Telfer School of Management

**Elective Courses**

- 18 elective course units: 18 Units

**Total:** 120 Units
