HONOURS BSC IN ENVIRONMENTAL SCIENCE

Environmental Science is the interdisciplinary study of the environment, its functioning and its relationship to human activities.

Society has a growing need for specialists able to recognize, understand, solve and prevent environmental problems.

The Environmental Science program at the University of Ottawa focuses on the integration of traditional science disciplines (e.g. biology, earth sciences, chemistry, physics) to study the natural environment and the impact of human activities. The program consists of a core of basic science courses complemented by courses in various disciplines that address the scientific and societal aspects of environmental problems. In addition, the program offers three areas of specialization: conservation and biodiversity; global change; and environmental geochemistry and ecotoxicology. The final year entails an independent research project or equivalent units in advanced courses in the specialization.

This program is offered in English and in French.

Program Requirements

Co-operative education is available with this program.

The extended French stream is available with this program.

Requirements for this program have been modified. Please consult the 2015-2016 calendars (http://www.uottawa.ca/academic/info/regist/1516/calendars) for the previous requirements.

- BIO 1130 Introduction to Organismal Biology 3 Units
- BIO 1140 Introduction to Cell Biology 3 Units
- CHM 1311 Principles of Chemistry 3 Units
- CHM 1321 Organic Chemistry I 3 Units
- EVS 1101 Introduction to Environmental Science 3 Units
- GEG 1302 Places and Spaces of Human Activity 3 Units
- GEO 1111 Introduction to Earth Systems 3 Units
- GEO 1115 Introduction to Earth Materials 3 Units
- MAT 1330 Calculus for the Life Sciences I 3 Units
- MAT 1332 Calculus for the Life Sciences II 3 Units
- PHY 1321 Principles of Physics I 3 Units
- BIO 2129 Ecology 3 Units
- CHM 2353 Descriptive Inorganic Chemistry 3 Units
- GEG 2320 Introduction to Geomatics 3 Units
- MAT 2379 Introduction to Biostatistics 3 Units
- BIO 3117 Ecosystem Ecology 3 Units
- EVS 3101 Environmental Issues 3 Units
- EVS 3102 The Practice of Environmental Science 3 Units
- EVS 3120 Environmental Microbiology 3 Units
- GEO 3342 Introduction to Hydrogeology 3 Units

3 course units from:

- GEO 3352 Geological Data Analysis 3 Units
- BIO 4158 Applied Biostatistics 3 Units

9 course units from:

- EVS 4009 Research Project 9 Units
- or 9 optional course units at the 3000 or 4000 level from the list of optional courses offered by the Faculty of Science, the Faculty of Engineering, the Department of Geography (GEG) or from one of the options in the Honours BSc in Environmental Science program

EVS 4010 Field Course in Environmental Science 3 Units
EVS 4904 Seminar 3 Units

12 elective course units offered by the Faculty of Arts, the Faculty of Education, the Faculty of Law, the Faculty of Social Sciences or the Telfer School of Management 12 Units

6 optional course units offered by the Faculty of Science or the Faculty of Engineering 6 Units

24 course units from the Conservation and Biodiversity Option, the Global Change Option, or the Environmental Geochemistry and Ecotoxicology Option 24 Units

Total: 120 Units

Conservation and Biodiversity Option

- BIO 2135 Animal Form and Function 3 Units
- BIO 2137 Introduction to Plant Science: Biodiversity to Biotechnology 3 Units
- BIO 3115 Conservation Biology 3 Units
- ENV 3321 Human and Policy Dimensions of Environmental Change 3 Units

3 course units from:

- GEO 2113 Paleontology 3 Units
- GEO 2334 Quaternary Geology and Climate Change 3 Units

9 optional course units at the 2000, 3000 or 4000 level from the list of optional courses offered by the Faculty of Science, the Faculty of Engineering, the Department of Geography (GEG) or from one of the options in the Honours BSc in Environmental Science program 9 Units

Global Change Option

- GEO 2304 Climatology 3 Units
- GEO 2334 Quaternary Geology and Climate Change 3 Units

12 optional course units from:

- BIO 4150 Spatial Ecology 3 Units
- ENV 3321 Human and Policy Dimensions of Environmental Change 3 Units
- GEG 3102 Hydrology 3 Units
- GEG 3105 Remote Sensing 3 Units
- GEG 3107 Geography of Polar Regions 3 Units
- GEG 3114 Biogeography 3 Units
- GEG 3302 Natural Resource and Environmental Management 3 Units
- GEG 3312 Advanced GIS 3 Units
- GEG 4100 Glaciology 3 Units
- GEG 4101 Permafrost Environments 3 Units
- GEG 4112 Quaternary Paleoenvironments 3 Units
- GEG 4118 Environmental Impact Assessment 3 Units
- GEG 4129 Global Climate Change 3 Units
- GEO 4332 Permafrost Geomorphology 3 Units

Total: 120 Units
