JOINT HONOURS BSOCSC IN PHILOSOPHY AND POLITICAL SCIENCE

Philosophy
Since it deals mainly with issues that have no simple solutions, philosophy emphasizes the exchange of ideas and debate, and thus cultivates an appetite for deep and serious reflection. By reading and discussing the works of the world’s great thinkers on fundamental topics like truth, justice, morality and existence, you sharpen your own ability to think clearly, critically and independently. The Department’s curriculum has a twin approach, historical and analytical, and covers political and social philosophy, ethics, philosophy of science, philosophy of language, philosophy of mind and logic.

The Department of Philosophy also runs a minor in applied ethics.

Political Science
Politics is omnipresent in our lives. Political science seeks to describe, analyze, understand and assess the principles and power relations that govern social life. It revolves as much around the structures and institutions that define these relations and principles as around the ideas and practices that drive them. It studies everything that influences political life and institutions (ideologies, groups, social movements, etc.) on a local, regional, national and international scale.

Our programs offer in-depth training in political science and encourage critical reflection on pivotal issues like citizenship, identity, political participation, globalization and development, governance and the state, and ethics and democracy. A discipline open to many theoretical and methodological approaches, political science constantly exchanges and shares with other fields. At the University of Ottawa’s School of Political Studies, you build your knowledge in four subfields of political science: political thought, Canadian and Quebec politics, comparative politics, and international relations and global politics.

This program is offered in English and in French.
