MINOR IN GERMAN
LANGUAGE AND CULTURE

If you truly want to broaden your horizons in the 21st century, learning German will give you the edge you need. German is one of the most widely spoken languages in the world. Indeed, more than 120 million people have German as their mother tongue, while many others study it for reasons both practical and social. With knowledge of German, you improve your employment opportunities. Germany has the largest economy in the European Union and the third largest in the world. German is a leading language of science, literature, art, philosophy and history. Bottom line: being able to speak and write German puts you in high demand.

Our courses not only allow you to acquaint yourself with contemporary German, but also give you insights into the cultural and political history of German-speaking countries and into German cinema and literature. Through exchange programs with Germany and Austria, you can complete courses toward your degree in a native-speaking environment. Closer to home, the activities of the German Club provide an informal setting for honing your German-language skills. Our close cooperation with embassies and the Ottawa branch of the German Goethe Institute provides opportunities to participate in cultural activities and to receive official certification of your language proficiency level.

Courses in this program are taught in German, English or French.
