SCIENCE
ENTREPRENEURSHIP OPTION

The Science Entrepreneurship option is a 15-unit (five course) option that can be incorporated into your Honours BSc program. It provides an introduction to business management, new venture creation and entrepreneurship that will allow you to take a new scientific idea to market. It also includes a course on creativity and innovation, and a fourth year capstone course specifically dealing with commercializing a scientific product.

Program requirements

The table below includes only option-specific courses. Please refer to the Academic Regulations for information on the possible combinations available within the Faculty of Science.
